 \$2.50 per year; \$1.50 for six months

"New Look" In Agriculture Woosting The Motorist

The American motorist has "never been more ardent" than today. That statistic comes from the sales manager of a big oil company. The current year, he said, is witnessing the sharpest come-back in the history of the automobile. The population growth that has taken place in the past few years is expected to increase farm output by about 40 percent, and does it with 17 per cent less labor.

That speaks well for the progressive spirit of the American farmer. It is a tribute to his efficiency, when he actually revolutionized the production of American agriculture. Farmers produce so abundantly that 85 per cent of the population can now grow their own food. It is an efficiency that saved before the war. Increased farm output by about 40 percent, and does it with 17 per cent less labor.

Man to Close Garage Business July 1

at Frankfort last Friday, although youngest member of his class, was a member of the State Street Garage, announced that he is going out of business July 1.

Dealers were paying 30 cents per pound for work here. Yesterday, it was 25 cents per pound.

Loretta Williams, daughter of Tom Williams, graduated with honors from the negro high school at Frankfort last Friday, although youngest member of his class, was a member of the State Street Garage, announced that he is going out of business July 1.

---AND A GOOD TIP FOR YOU---

WHEN it comes to sales, every car maker aspires to be up at the top of his price class. Which is only natural. Popularity like that means success.

We know, because for years Buick has held such an envied position—the unquestioned sales leader in its class. And with good reasons in styling, room, power, value.

But today, folks like you have pushed Buick success even beyond bounds.

Today, the top sales standings of a full generation have been changed. Today, latest sales figures for the first four months of 1954 reveal this phenomenal fact:

In total national volume, regardless of price class, Buick is outselling all cars in America except two of the so-called "low-price" cars.

That's a tip too good to pass up. That's the tip-off that Buick really has the hottest styling of the times and the sweetest performance of the year.

More important, that's the tip-off that Buick prices are well within the reach of more and more people — that's such prices buy a lot more automobile per dollar.

So why not look into the tomorrow-style Buick that puts you so far ahead today?

Come in, or phone us this week for a demonstration. Then you can judge for yourself that Buick really is the beautiful buy—by far.

Tid Bits Of Kentucky Folklore

By Dr. Gordon Wilson

"JUST A LITTLE BITTERR" many a year ago a head of an ox-die told how he had worked out what was regarded as an almost ideal situation in a state institution for the feeble-minded. He had done so well in his job that he was called to New Jersey, where his model state institution attracted the attention of people from all parts of the world. And yet his head seemed so simple that he wondered why somebody, above that level, had not put in charge of a group of second-class members a feeble-minded fellow, more than he was. He was a step ahead of his group and was followed as an order person, especially one not much older. If he were to be taken to be done, the first-class men were given a book and told what to do. And so it went, the first-class men were given a book and told what to do. And so it went, the first-class men were given a book and told what to do.

The church is a member of the Kentucky Church Member's Work, and was cited for its work in the county.

Now Sudan Grass Any Time In June

Sudan grass, highly recommended for pasture and for hay, can still be sown, says a statement from the College of Agriculture and Home Economics, University of Kentucky. It is usually sown about two weeks after corn planting, with July 1 as late as it should be sown for hay.

DAR Rola - Rola

Farmer in Hickman county used two pounds of Stigolene in some sections of Pike county. The farmer is a member of the Stigolene club, and has been successful in his work.
