

### Tid Bits Of Kentucky Folklore

**"CHANGE GEAR"**

In the early days of cars the traveler was often urged to shift gears when he was about to start down or up a hill. A few of these old signs still hang, or remain in a corner of some long ago when we were getting adjusted to new conditions. Three signs remind me of how often my generation had to shift gears, because of changing conditions. I cannot too strongly how hard it has been for us to keep up with the progress or at least stay within hearing distance of it.

over \$600,000,000

Yes, over \$600,000,000 was spent in Kentucky last year through the travel industry. That's a lot of dollars... and it takes a lot of doing to keep these dollars flowing...

Your state government feels that it is in a partnership with the owners of hotels, tourist camps, restaurants and other businesses that cater to the traveler and with the Kentucky State Chamber of Commerce and local organizations to promote the travel industry and to serve those who want to visit over Kentucky.

The Kentucky Division of Public Works has an all-out campaign to attract tourists into Kentucky, and its national advertising campaign has resulted in an average of 120,000 inquiries from out-of-state tourists annually.

Through the Division of Public Works, your state government has built a system of state parks that are attracting national attention and adding in bringing many thousands of visitors into Kentucky each month.

The travel industry is big business, and its benefits reach into every community and around the state from its many products. Let's take care of the visitors... and then right so that they will go over pleased, will return business and send others to us. Give them a full measure of true Kentucky hospitality.
