You Have A Most Important Decision To Make
THURSDAY
April 28, 1955

If you wish to keep the present loan program and be assured of a \$46.20 average support price for the 1955 crop

VOTE "YES"

if one-third of the producers disapprove there will be NO SUPPORT on this year's crop

REMEMBER THESE FACTS

- During the past 10 years (1945-'54) average price \$47.20.
- For the 10 years prior to program (1930-1939) average price \$16.50.
- Before we had supports an acre of tobacco yielded less than \$200.00. In recent years an acre has produced a revenue of more than \$800.00.
- Although several cuts have been made the monetary return has been increasing.
- Why produce 3 acres without supports when 1 acre with supports brings more money?

A VOTE IN FAVOR MEANS CERTIFIED GOOD PRODUCE. A VOTE OPPOSED AND ALL GO BROKE.
