Nicholas Countians Can Get Loans On Flood Damage

Representative John C. Watts (Dem., 58th District of Kentucky) has announced that the Department of Agriculture had designated five counties in the 56th Congressional District of Kentucky as an area where the Farmers Home Administration may make emergency loans to farmers whose property and crops were damaged early in July by excessive rains and floods. The counties are: Estill, Garrard, Madison, Nicholas and Powell.

Applications for the loans for farmers living in Estill, Garrard and Madison Counties should be made at FHA office in Richmond. Nicholas Countians will be served by the FHA office in Flemingsburg, and Powell County by the office in Hampton.

To be eligible for a loan a farmer must be unable to obtain the credit he needs from other sources. He must be engaged primarily in farming and have sufficient farming experience and reasonable prospects for success in the farming operations he plans to carry on with the loan. In addition, he must be unable to refinance his debts on terms which would enable him to continue his farming operations.
