The Garden

John S. Gardner,
University of Kentucky

Ways were described last week for growing more vegetables and squashes may be well-revised, using room or closets as a growing space for larger plants. To grow them in a dwelling or cellar rooms is not a new idea. The idea is to use the space in a room in a different way. The idea is to use the space in a room in a different way. The idea is to use the space in a room in a different way.

Merchant's make news, too!

Our readers read the ads as thoroughly as they read the news.

Because advertising helps them decide what to buy... how much to pay... and where to buy it.

Advertising makes buying easier... local business better!

Telephone in handy places

Save steps and time for busy homemakers

...and you'll find out how to make housekeeping easier!

Strawberries, asparagus, corn on the cob... all the family's favorites are "in-season" every day of the year when you own an electric freezer! Picked garden-fresh and flavorful, they stay that way for weeks—for months. Even leftovers are good-as-ever long after being frozen. And when there's no time for wash and desert, a simply reach for a refrigerator or some ice cream. Yes, an electric freezer saves you work, time and money in so many ways. Visit your dealer, soon!

Storage Units Not Recommended For Freezing Foods

Use of storage compartments of refrigerators for freezing large quantities of food is not generally recommended, according to Mrs. Pearl Hank, authority on freezing foods at the University of Kentucky.

She said that the reason for this is that the temperature of the compartments is not intended to be used for freezing food. She said that the reason for this is that the temperature of the compartments is not intended to be used for freezing food.

St. Louis

St. Louis, Mo., July 28.—(AP)—The St. Louis office of the U.S. Food and Drug Administration today announced that it had received reports that some people were using the storage compartments of refrigerators for freezing large quantities of food.

The agency said that it had received reports from several sources that some people were using the storage compartments of refrigerators for freezing large quantities of food. The agency said that it had received reports from several sources that some people were using the storage compartments of refrigerators for freezing large quantities of food.
