KEEP YOUR SCORE ON SPRING and SUMMER SEASONAL RACKETS

Will you be one of this year's crop of Summer Suckers? You don't have to bet but if you do bite on one of the following you will soon know it. Then while you wait for your blood pressure to subside, write down the price of your lesson.

- That moss and hummer for your lawn, sold from a truck at \$1 a bushel.
-Tenant tree trimmers and fernite "experts" who just happened to be in your neighborhood and noticed how badly you need their service.
-Undelivered delivery boys who want to pay C.O.D. charges on a package for your neighbors who are not at home.
-Fake rollers and gutter cleaners who want to make badly needed repairs (they say) without quoting you a price in advance.
-Persons posing as deaf mutes who hand out packages of bandages or pins attached to a card with a story on it.
-"Phony" telephone queries asking such simple questions that you have to go around not to "win" something you multiply ten for.
-Septic tank shenanigans, they avoid giving advance prices but collect whopping bills for pumping out an invaluable article of sludge.
-Short-roll linoleum peddlers offering you a sensational deal on some material they say they have left over from another job.

TOTAL (This amount is your SEASONAL SUCKER TAX - deductible only from your own pocket)
