### Kentucky's Great Need

From time to time The Mercury has printed news concerning the development of a Medical School at the University of Kentucky. On February 28, 1935 an editorial entitled "More Doctors for Kentucky" appeared.

In 1931 the Kentucky State Medical Association requested the American Medical Association to study the educational and training of an adequate number of Kentucky for the profession of medicine.

Statistics have been compiled that would indicate that Kentucky needs about 1,000 more physicians. The American Medical Association and the Nicholas County with 7500 plus population is served by only three doctors in the county. Nicholas County Health Department. However, one county in Kentucky has only one doctor in its 13,000 residents and another does not have a single doctor in the county.

Something must be done to alleviate this situation. It has been three years since the Commissioner made his recommendations. The Merit Board has been established to study the situation. The establishment of a Medical School at the University of Kentucky would be a great boon to the state and its ever growing population.—E.F.F.

### Listen To Our Former Presidents

President Franklin D. Roosevelt speaks of the innumerable heavy burdens of work that are imposed upon the executive offices of the President. He says that Congress created the office of an administrative assistant to the President as a measure to relieve him of the weight of his office.

Statistics have been compiled that would indicate that Kentucky needs about 1,000 more physicians. The establishment of a Medical School at the University of Kentucky would be a great boon to the state and its ever growing population.—E.F.F.

### A Community's Diary

The local newspaper is a personal diary of the community's life. It is a record of the daily events, the births and deaths, the marriages and divorces, the successes and failures. It is a record of the life of the community as it changes and grows.

It is a record of the life of the community as it changes and grows. It is a record of the life of the community as it changes and grows. It is a record of the life of the community as it changes and grows.

### Tid Bits Of Kentucky Folklore

**By Dr. Gordon W. Wilson**  
**"TID BITS OF KENTUCKY"**

Most of us who have enjoyed watching the village folk of the rural world wonder why we should be so interested in their lives. The answer is simple. It is because they are the people who have made the history of our country. Their lives are the lives of our country.

Their lives are the lives of our country. Their lives are the lives of our country. Their lives are the lives of our country.

### Water Report Now Available

**By Mrs. E. J. Wright**

A report on the quality of the water of the State of Kentucky for the year 1935 is now available. It shows the results of the water analysis for the year 1935. The report shows that the water of the State is of good quality and is safe for drinking.

The report shows that the water of the State is of good quality and is safe for drinking. The report shows that the water of the State is of good quality and is safe for drinking.

### Letters to the Editor

**By Mrs. E. J. Wright**

I don't think I would give credit to the editor of the Mercury for printing the letter of Mrs. E. J. Wright. I think it is a credit to the Mercury for printing the letter of Mrs. E. J. Wright.

...or in "barrels of clothes"

Buy an electric clothes dryer

Most know a few clothes all ready to wear are better than a lot on the line! Baby can have a smaller wardrobe when you have an electric dryer to keep him fresh-clothed all the time. Clothes come out of the dryer baby soft. Use dry clothes any time in an electric clothes dryer.

### "I've got room for 9 of us"

Chevrolet offers you a choice of six splendid new station wagons including two new 7-passenger models—plus beautiful Horry Coach with plenty of cargo space. All with spacious interiors ranging up to a list \$2000.

Here's a spiffy, cranking kind of power that's fun to handle. And the closed-thin that sports car performance—right second driving track and the knock of holding fast around curves. "You'll find it a full-size automobile. Best built with or without shoulder harness, and instrument panel padding, with all extra extra. Safety door latches and directional signals are standard. Come in, see and drive a real road car!
