

The Carlisle Mercury

ESTABLISHED 1847

Printed and Published Every Thursday at Carlisle, Kentucky

WALDEN E. FISHER JR., Editor-Publisher

Subscription Rates Per Year
\$2.50 per year, \$1.50 for six months

Your name in the paper

How valuable is local newspaper advertising to local business people? Here's what the American Bankers' magazine, a publication which represents a traditionally handicapped profession, has to say: "No business man or woman in any town should allow a newspaper to go to press without his or her name and address being mentioned somewhere in its columns. This does not mean you should have a wide, bold, or even a quarter page advertisement in each issue of the paper but your name and address should be mentioned if you do not use more than a two-line space.

Watch the Town House!

It's all very well and necessary to talk about cutting the cost of the federal government. But we must not let that obscure the problem of local government. The Carlisle Mercury is the only newspaper in this area which has a special section devoted to the local government. This section is published every week and contains all the news and information that you need to know about the town house.

Coal for Europe

It has been observed that the "United States is serving as the coal mine of the world." This is a statement which has been made by many of our statesmen and leaders. It is a statement which is well founded in fact. The United States has the largest coal reserves in the world and is producing more coal than any other country in the world.

Fruit crop small in this section; will be built up at lake to stop leaf

Concrete will be being used in many places, hundreds of trees having been killed by the cold weather last winter. The fruit crop in this section will be very small. The farmers in this section are working hard to get their trees in shape for next year's crop.

KENTUCKIANS

The price of potatoes is high at this time of the year. The farmers in this section are working hard to get their potatoes in shape for next year's crop.

IN WASHINGTON

Mr. Smith and J. A. Standish were named directors of the new oil conservation program. The program is designed to conserve oil and other resources.

THE BORN TO BE GOOD SAVINGS

The price of potatoes is high at this time of the year. The farmers in this section are working hard to get their potatoes in shape for next year's crop.

Evergreen car important now

Evergreen cars are important now. They are a good investment and a good way to get around. They are also a good way to save money.

Foreign exchange students in Ky.

Foreign exchange students are coming to Kentucky. They are a good way to learn about our country and to make friends.

Double standard

There is a double standard in the way we treat our citizens. We treat our own citizens differently than we treat other people.

Recalcitrant needed against fire beetles

Recalcitrant is needed against fire beetles. These beetles are a major pest and are causing a lot of damage to our crops and buildings.

Correction

Correction: The article on fire beetles was published in error. The correct information is as follows:

Gossip neighbor's judgment proven wrong by well known folklorist

Recently a famous folklorist and was discussing our rural neighbors as they had the attention of the society for the prevention of child abuse. The folklorist said that he had never seen a child who was not the son of his mother.

Many children used to be put to bed by their mothers. This was a common practice and was done for the best of the child.

Many children used to be put to bed by their mothers. This was a common practice and was done for the best of the child.

Many children used to be put to bed by their mothers. This was a common practice and was done for the best of the child.
