Modern Furniture Co.'s Mystery Farm Contest

Free Gift Certificate—Aerial Photo To Farm Owner

What's in this picture? Mystery Farm Contest. Photo by Zelen Robinson.

Who's Farm Is Pictured Here? **MYSTERY FARM CONTEST**
• Free \$3 Gift Certificate • Aerial Photo To Farm Owner
MAIL Your Entry By SATURDAY
Phone or Personal Calls Not Eligible
Mail Your Entry To: "MYSTERY FARM"—Modern Furniture Co.

The identity of the above farm is unknown to the Mystery Farm. Look it over closely, discuss it among your family and friends, then write your guess on a post card or in a letter with your name and address and mail it to MYSTERY FARM, Modern Furniture Co., Carlisle, Md. as early as you can. But not later than SATURDAY.
The owner of the farm managing to identify the farm in the house pictured who calls or writes to identify the farm will be given a beautiful mounted aerial photograph of the farm. Tests made to be an original sharp eye to name these farms. List them, then MAIL YOUR ENTRY. You may be the winner of a free gift certificate. Names of the persons to identify the farm correctly will be published and the identified farm will be featured in a news story next Thursday.

CONTEST RULES
1. Entries will be accepted by mail only and must be mailed following publication of the mystery farm on Thursday.
2. The winning entry will be drawn from 1. Entries will be accepted by mail only and must be mailed following publication of the mystery farm on Thursday.
2. The winning entry will be drawn from

Meet the Man who tells a City's fortune...

100 Armstrong does no crystal ball. But he sees 10, 10 years ahead. He sees thousands of telephone wires today there are hundreds—or more. But it is one of many Southern Bell engineers who forecast community growth and plan telephone service to meet it for you and your neighbors.

New phones don't just happen. The one you see today is the result of planning years ago. Millions of dollars worth of equipment, buildings, lines and cables must be engineered and built, long before phones are installed, to fit the needs of a growing community.

100 Armstrong and some 60,000 other Southern Bell folks have one aim: to bring you the kind of service you want and need, now and in the years to come.

Let us help you with FULL HOUSEPOWER from KENTUCKY UTILITIES COMPANY

LABORAVING PLASTIC MULCH

—Innovative farmers who start out enthusiastically in the spring with their plantings find the gardeners soon to be weeding and taking a tip from Kentucky Agricultural Experiment Station vegetable specialists and use plastic row mulch. Photo at right shows rows where the black plastic was not used. Photo at right shows plot where mulch was used. The rows where the black plastic was used are much higher in soil right behind the plants. Dr. E. M. Emmert, specialist, is actually standing on the black plastic which is the shiny material visible between rows. The plastic keeps weeds from getting air or light and thereby prevents the weeds from growing. It is easy to apply and can be used again if care is taken. Other men in photo are J. Edgar Harris, maintenance superintendent, Kentucky Agric. Extn. Service (Photo by J. Edgar Harris)
