Henryville News

By Aurelia Hamilton

Mr. and Mrs. Henry Johnson and son of Middletown, Ohio, spent the weekend with his mother, Mrs. Bettie Johnson.

The 4-H club demonstration at the B. T. Washington school was nicely attended and they had a wonderful program. It is improving more each year.

Marion Shepard, of Cincinnati, spent the weekend with his grandmother, Mrs. Eliza Simpson.

Eugene Davis of Mt. Sterling, was the Sunday guest of Miss Bertie Summers.

Miss Bettie Jo Stevenson and Miss Bettie Sue Williams returned from their school trip Sunday from Washington, D. C. and the two girls gave a lovely report on the many sights they saw.

The Little Gleaners Band, under the direction of Mrs. Aurelia Hamilton, rendered a program at the C.M.E. church Sunday afternoon, sponsored by the pasters aid with Mrs. Norietta Thompson Mistress of Ceremony and Mrs. Catherine Saunders, president.

Mrs. Harriet Cole and son, Mr. John McGuffey Jr. of Mich., passed through Carlisle, Friday. They have been in Paris, at the bedside of Mrs. Mattie Howard. At this writing Mrs. Howard is slightly improved.

The Little Rock Male Chours, under the direction of Professor Charles Bramlett, will sing at the Christian church Sunday afternoon at 3 o'clock. (Fast time) The public is cordially invited.

George Summers, who has been ill at his home on 1. Broadway, is better and again able to be out.

Let us not forget Sunday a Mother's Day, May 13. May we all wear white and pink carnations to give respect to mother. The flowers will be on sale at 109 Locust St. in Henryville, at the residence of Mrs. Aurelia Hamilton. So let us not forget that our best friend on earth is our mother. We should all not forget her on Mothers Day.

Sunnyside

By Mrs. Bessie Jackson

Mr. and Mrs. Ray Shields and daughters were Wednesday night and Sunday guests of Mr. and Mrs. John Shields.

Mrs. Sterling Jackson was Thursday and Friday guest of Mrs. John Wallace.

Mrs. Marvin Caswell and son were Thursday guests of her aunt, Mrs. John Wallace and Mr. Wallace.

Mr. and Mrs. Vernon Bussell and son were dinner guests Sunday of Mr. and Mrs. Otis Davis and children.

Charles Allen Davis was weekend guest of his sister Mrs. Vernon Bussell and family.

Mrs. Ray Shields and daughters were Tuesday and Saturday guests of Mrs. Sterling Jackson.

Otis Davis and sons and grandson were Sunday afternoon guests of Mr. and Mrs. Clarence Davis.

Mrs. Nannie Linville and children were Sunday guests of Robert Ahnee and family.

Mrs. Otis Davis and daughter and granddaughter visited her mother Mrs. Charles Mann Sr. at the Nicholas County hospital Sunday afternoon.

Miss Emmagene Yazell was guest Sunday night of her sister, Mrs. Ray Shields and family.

John David Wallace was son and daughter spent Sunday afternoon with Mr. and Mrs. Everett Duncan.

The Homemakers met this last week with Mr. and Mrs. Gilbert Terrell.

Cane Run

By Mrs. C. A. Hoskins

Mrs. Nannie Mae Arnold and Mrs. Lucy Davis of Mt. Sterling, spent a few days recently with Mr. and Mrs. Tom Ring and Ferrell.

Mr. and Mrs. C. A. Hopkins spent one Sunday afternoon recently with Mr. and Mrs. T. Parsons at Myers.

Mrs. Silas Smith and son spent Sunday night with Mr. and Mrs. Clyde Clark and son.

Mr. and Mrs. Albert Hopkins and baby spent Sunday with her parents, Mr. and Mrs. Alvern Green at Barbersville.

Mr. and Mrs. Allen Bromagen and Mr. and Mrs. C. A. Hopkins spent Sunday with Mr. and Mrs. John Bromagen on Wheetome.

Mrs. Roger Bowles of Locust Grove spent Monday with her parents Mr. and Mrs. Herbert Smoot.

Mrs. Albert Hopkins and baby spent Thursday afternoon with Mrs. Tom Ring.

Mr. and Mrs. Harrison George and sons spent a few hours one night recently with Mr. and Mrs. Charles Watkins and children.

Mr. and Mrs. Junior Smoot and son spent last Sunday with Mr. and Mrs. Herbert Smoot.

Mr. and Mrs. Tom Ring and Mr. and Mrs. C. A. Hopkins spent a few hours Saturday night with Mr. and Mrs. Clyde Clark and son.

The friends and relatives of Mrs. Vera Shannon are sorry that she is ill Mrs. Shannon lives with her daughter and family Mr. and Mrs. Ernest Brammer at Marion, Ind.

MARY VIRGINIA WEBB, Bowling Green, Miss Warren County High School of 1954. Miss Warren Rural Electric Coop of 1955 and Miss Southern Kentucky Fair of 1955, will vie for the 1956 laurel wreath crown of the Mountain Laurel Queen. She will represent the Bowling Green College of Commerce.

Mary Virginia is a graduate of Warren County High School. Bowling Green After high school, she entered college to take a secretarial course. After school she worked in work for a while as a secretary and then attend modeling and designers school in New York. At present, her hobby is designing

Cassidy

By Mrs. T. H. Vice

Word was received here Saturday of the passing of Rev. Benson at his home at Shannon, Friday morning. He was the father of Rev. Johnnie Benson who was pastor of Cassidy church last year. We extend sympathy to his loved ones.

Rev. Jess Florence spent Sunday with Mr. and Mrs. T. H. Vice and Tommy.

Mr and Mrs. Cecil Hamilton spent one day last week with Mr and Mrs. Conway Tedder and family.

Mrs. Annie Stone and children have moved to the Charley Ishmael farm at Ishmael.

Mr. and Mrs. Eugene Letcher and children visited Ann. James and William Letcher Sunday afternoon.

Mr and Mrs. Oliver Crumpl

Bourbon county spent Sunday with Mr. and Mrs. Walter Sams and family.

Mrs. Kyde Allison, Mrs. J. W. McCall, Mrs. Conway Tedder and Patsy visited Mrs. Billy Walter McCall and baby Monday afternoon.

Mrs. Earl Letcher has been ill at her home the past week. We wish for her a speedy recovery.

Rev. and Mrs. Clay Jolly and children of Manchester, Ohio visited his brother, Stanley Jolly and family Saturday.

Don't forget Sunday school has been changed from 10:00 a.m. to 9:30 slow time.

The W.S.C.S. will meet with Mrs. Eugene Clinkenbeard Thursday, May 17, for an all day service.

COVER GIRL strives to become a queen. This is the story of Mallonev Asher, a sophomore at Union College. She has been cover girl for the Union College Bulletin and now she is to represent the college in the queen competition at the 1956 Kentucky Mountain Laurel Festival, May 24-26, at Pine Mountain State Park, Pineville. Mallonev was born in Barbourville and is a graduate of the Barbourville High School. After high school, she entered Union where she is majoring in drama and piano and minoring in literature and art. She has received a scholarship for study this summer at the University of Kansas. After college she wants to do stage work.

At Union, Mallonev is a member of the chapel and a cappella chours, art editor of the college year book and on the staff of the college newspaper.

Eight points listed in buying seed

Eight points should be kept in mind by farmers purchasing seed corn in the next few weeks, says Dr. Frank Loeffel, Kentucky Experiment Station insecticide agronomist

They are:

1. Buy adapted hybrids. Spoiled corn it a waste of feed, food and labor. Try early hybrids for late planting.

2. Buy two or more hybrids. seasons vary and hybrids respond differently.

3. Try new hybrids. Improvements are being made constantly. Farmers could try new hybrids on a limited acreage the first year.

4. Buy from a reliable source. Local dealers and reliable firms want satisfied customers.

5. Be sure the hybrid is backed by research and field tests. Good hybrids are developed through years of breeding and testing. Ask the dealer.

6. High prices and high pressure don't prove a hybrid Ask for proof.

7. Look for certified seed tags. Certified seed tags are a mark of quality and should be there before purchase.

8. Check the grade. A bushel of medium-flat grade seed will plant more acres than a bushel of large grade seed

DRAGON DUST KILLS INSECTS THE Safe way!

Worry no more about bothersome insects with Dragon Dust in your vegetable garden. Blue Dragon Dust has been effective and safely doing away with hazardous leaf-eating and seed-eating pests as well as lice, lice, ants, roaches, etc. since 1938.

Guaranteed to contain .78% rotenone. Blue Dragon Dust has effectively aided farmers and gardeners to insect extermination for years. Now is the time to let it help you. Ask for all the fun-size Dragon Products at your grocery, hardware, drug or feed and seed store.

Blue Dragon Dust BLUE DRAGON

MANUFACTURED BY J. M. HARRIS & CO., INC. ROANOKE, VIRGINIA

Try those other effective Dragon Products. There's one to solve every problem

You're watching Radar prove it!

WITHOUT TCP At the San Antonio Proving Grounds, several cars were fueled with competitive premium gasolines, but without TCP. The non-pinging H.P. car you see was driven about 500 miles, then stopped and examined. Its spark plugs were found to be heavily coated with deposits, which caused the engine to misfire.

WITH TCP The same car, after a few tankfuls of Shell Premium Gasoline with TCP, showed 10% faster acceleration when checked by radar. Results on the other cars, driven the same distance, were the same. The engine that was allowed a 5 to 10% increase in gas mileage each time, TCP additive had neutralized power wasting deposits, stopped spark plug "knock."

Shell Premium with TCP outclasses competitive premium gasolines in full-throttle acceleration test!

Modern cars are beautiful performers. Yet, within less than 2500 miles of driving, even a new car can fall victim to engine deposits.

These deposits cause pre-firing of the gasoline or spark plug "miss"—denying you the power you paid for, the acceleration you occasionally need no matter how careful a driver you are.

Shell Premium Gasoline with TCP, the greatest gasoline development in 31 years, neutralizes engine deposits. TCP additive restores power to your car that pre-firing and spark plug "miss" take away.

Switch to Shell Premium Gasoline with TCP and get back the power as you drive.

Shell's Trademark for the oxygen gasoline additive developed by Shell Research. Patent applied for.

The Thunderbird's own record-setting 312 cubic inch engine can now be yours in most Ford models

Ford goes First...with the 225-hp V8

Now you can have a 225-h.p. engine with Fordomatic Drive for less than the top engine in any other low-priced car with ordinary standard transmission!

Until you slip behind the wheel and sample the sizzle of a 225-h.p. Ford V-8 for yourself, the best thrills in motoring are still ahead of you. For this mighty engine delivers performance that will set your spine atingle — performance that will recapture again the fun of driving . . . performance that keeps Ford the world's largest-selling V-8!

Truly Ford goes first with this 292 cubic inch engine—largest ever offered in a low-priced car. Yet, even teamed with Fordomatic, it costs less than top engines in other low-priced cars with just standard transmission!

Ford goes first with Lifeguard Design, too. For example, there's the deep-center structure of the steering wheel that helps to protect your chest in case of accident . . . double-grip door latches to reduce chance of doors opening under impact.

As for looks, every '56 Ford took its styling inspiration from the Thunderbird. They're the most glamorous cars in Ford's field.

In economy, too, Ford goes first. In the 1956 Mobilgas Economy Run, a Ford V-8 beat everything in its class—including Sixes as well as Eights. Come in now for a thrilling Test Drive. When you return you'll understand why Ford is the V-8 with the biggest following.

In Performance . . . Safety . . . Economy

FORD goes first

Now! An air-conditioned Ford costs less than many medium-priced cars! Try one today!

Harper's Garage 254 E. Main St.

James Waugh and family, Son Livengood and family, and Robert Platt and family were guests Sunday of Mrs. Waugh and family.

Tips to increase garden efficiency

Garden time is here, says George A. Marlowe, Jr., extension horticulturist, and a couple of tips followed now can increase garden efficiency.

Broadcast the fertilizer, using from 500 to 1,000 pounds of 5-10-10 or 5-10-5 fertilizer an acre, instead of putting it down in rows says Marlowe. Soil tests should be made where possible since the 500 to 1,000-pound rate is a general rule for soils of medium fertility and will vary in certain localities. Turn the fertilizer under after broadcasting, Marlowe says, to assist in getting a good seed bed for various garden plants and to get the fertilizer down to root areas. The plant foods should be applied about three weeks before planting time.

A package insecticide and fungicide, commercially available, will help home gardeners. The package material will control most chewing and sucking insects and the most common of garden diseases, Marlowe points out. Most home gardeners have little time to spend on spraying a complete spray schedule and the package treatment eases that burden. However, specific insecticides should be used where possible.

"UNLIKE MOST GIRLS, throughly enjoy washing dishes and cleaning house. My favorite pastime is cooking and baking —things I have been doing since I was big enough to reach the stove."

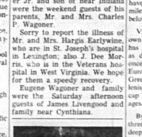
This quote came from Margaret Vincent who will represent Morehead State College in the queen competition at Kentucky Mountain Laurel Festival, May 24-26, in Pineville.

Miss Vincent is the daughter of Mr. and Mrs. Floyd Platt.

Mr. and Mrs. Charles Wagoner Jr. and son of near Indiana were the weekend guests of his parents, Mr. and Mrs. Charles F. Wagoner.

Sorry to report the illness of Mr. and Mrs. Hargis Earlywine, who are in St. Joseph's hospital in Lexington; also J. Dee Morris, who is in the Veterans hospital in West Virginia. We hope for them a speedy recovery.

Eugene Wagoner and family were the Saturday afternoon guests of James Livengood and family near Cynthiana.



NOT A NATIVE KENTUCKIAN Claudine Moore was born in Memphis, Tenn. but she has been living in Lone Oak, Ky. since she was in the sixth grade. She was graduated from Lone Oak High school. Murray State College is her college home. She is studying for a double major in piano and voice with a minor in home economics. Claudine's first love is music. In her high school days she worked with the first grade as well as having private piano students in her home. At Murray, in addition to her music studies, she sings in the college a cappella choir, is a member of Sigma Alpha Iota, a national music fraternity for women, and participates in dramatics. Last Fall the Murray students honored Claudine by selecting her a Campus Favorite. This Spring Claudine will represent Murray's student body in Kentucky's Mountain Laurel Festival, May 24-26 in Pine Mountain State Park, Pineville.

Claudine is the daughter of Mr. and Mrs. Ben Livengood and a granddaughter of Mrs. Ella Livengood and two children, Homer Morris, Mr. and Mrs. Jack Handover, Afternoon guests Mr. and Mrs. James Livengood and two children. Mr. and Mrs. Floyd Platt, Mrs. George Brunker and daughter Julian.

Mrs. Willie Coy, who has been on the sick list, is better at this writing.

James Waugh and family, Son Livengood and family, and Robert Platt and family were guests Sunday of Mrs. Waugh and family.

Greenland: A lost world of ice

It is melted all at once, the world's oceans would rise by 24 feet—perhaps higher as Greenland itself lifted from release of weight.

Such are the almost inconceivable dimensions of the Greenland ice dome—647,800 cubic miles of ice. Paul-Emile Victor, French polar explorer writing in the current National Geographic Magazine, calls it a "recording machine of times and climates past."

Totally unknown plains, plateaus, valleys and mountain chains were discovered buried two miles deep. Map makers blazed 10,000 miles of new exploration. Climatologists recorded conditions that affect the weather of the entire North Atlantic and the lands around it.

With 3 vessels (World War II snow vehicles), a cable hoist, and air drops, the Victor expedition managed to get more than 100 tons of equipment and supplies onto the perpetually frozen roof of Greenland.

They fought mowing glacial snow and ice, slush, hummocks and crevasses, warm fochn winds and midsummer blizzards with gusts of 120 miles per hour and temperatures of 40 degrees below zero.

Eventually their Central Icecap Station was built. For two successive winters, parties of eight men dug in and lived through some of the world's wildest weather. Buried in the snow, like prisoners in cells, they ventured out only to make readings, sometimes at 85 degrees below.

Canvass Beneath The Ice

For the first time, the depth of much of the icecap was measured. Bedrock in places was found to be below sea level. Reports were that Victor had found Greenland to be not one but three islands, but he himself writes, "We are hardly able to say that.

"What we found is that glaciers (of the central part of the icecap) have carved out canyons 20 to 30 miles wide and 300 to 1,200 feet below the level of the sea."

Victor observes that Greenland's own ice is the chief reason why it has all not melted away long ago, as did the great ice desert that once covered much of northern Europe, Asia, and America. In Greenland the cold of past millenniums has accumulated; the icecap lives today on the cold of past ages.

By lowering himself into a well three feet across and 100 feet deep, the explorer was able to read a century's history in layers of nerve — compacted snow — much like tree rings. This hole was only a pinprick in the ice dome, however; seismological readings showed that the Icecap Station stood on top of some 10,400 feet of snow and ice.

To fill in a remaining blank spot on Greenland's map between 74 degrees north and 77 degrees north, the French leader hopes to return with a dog-team expedition during the 1957-58 International Geophysical Year.

CWF conference here Monday

Mrs. Kenneth Bowen

Mrs. J. W. Herndon

Mrs. Kenneth Bowen, Erlanger, vice-president of the Christian Women's Fellowship in Kentucky, and Mrs. J. W. Herndon, Richmond, Kentucky Disciple Director will conduct study courses in Worship and Study at the District C.W.F. Conference to be held at the First Christian church in Maysville on Monday, May 14.

Registration will begin at 9:30 a.m. C.D.T. and the morning session will be devoted to local president's reports and an address by Miss Martha Bateman, missionary to the Belgian Congo.

Mrs. Charles Hopkins, county secretary, with several members of the Women's Christian Missionary Society (CWF) from the Carlisle Christian church will attend the conference.

UK STAGES TRAINING SCHOOL FOR FIREMEN

Nearly 40 fire department officials and personnel from all parts of Kentucky completed a two-day training course last week. The firemen participated in the program in order to make plans for the annual Kentucky Fire School, scheduled for June 5, 6 and 7 on the University campus.

TWO ENGINEERS AT UK WIN TOP RECOGNITION

Two University of Kentucky engineering faculty members won top awards last week at the annual meeting of the Southeastern Section of the American Society for Engineering Education. Dr. I. P. Hammond, professor of metallurgical engineering, was recognized for "outstanding research during 1955." James T. Miller, 25-year-old instructor in mechanical engineering, captured first prize for the best engineering paper written by a young scholar in the Southeast.

About 30 years ago, direct firing of pulverized coal was first used commercially in boilers.

APHID DISTRIBUTION—This map of the western half of the United States shows the distribution of the spotted alfalfa aphid, an insect pest that seems to be moving toward Kentucky. Black areas represent sections where the spotted alfalfa aphid, in a sudden appearance two years ago, damaged alfalfa production greatly. Black area at right hand side of map includes Arkansas, a state just a short trip from the southwestern edge of Kentucky. Agricultural Experiment Station entomologist are studying the insect pest and readying themselves for an all-out fight once the aphid is reported in Kentucky. Drawings at right show physical appearance of the spotted alfalfa aphid (top) and of other commonly known aphids.
