Newest Buick Yet

WE'VE introduced a lot of new Buicks to the local scene-but never before one

VV the local scene-but never perior one as new as this. Inside and outside, top to toe, end to end—this is the newest Buick yet. And it's not just new for newness itself—but new in ways that make driving more comfort-

able, safer and more fun. You'll see what we mean when you study these gorgeous new Buicks close up.

They're inches lower and stunningly styled from stem to stern – yet each is wondrously

They bring a wide-eyed new visibility of the road ahead with a rakish windshield that adds hundreds more square inches of glass area.

They're new in ride, with a new contour frame chassis that "nests" your going—giving new roadability with a lower center of gravity— yet road clearance is unchanged.

yet road creatance is unchanged.

They're new in handling with a new Buck-developed ball-joint suspension that makes steering and cornering easier while it levelizes

-with a V8 engine that's new from the crank shaft up, to give you the highest power and compression in all Buick annals.

compression in an Buck Samasic,
—with an advanced new Variable Pitch
Dynaflow* that brings you such instant
response, such smoothness, such a full range
of fluid motion in "Drive" that the need for
"Low" is all but eliminated.

All this covers only the big advances in the

1377 DUICK.

There are other wonderful new things—the new safety instrument panel—the new colormate interiors—the new counterbalanced brake pedals—well over a hundred and fifty new features in all.

As your Buick dealer, we're ready to show you these newest Buicks yet-and how easy you'll find it to call one your own. Stop in and see us this week.

IIII Week.
*New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick builds today. It is standard on Roadmaster, Supre and Century—optional at modest extra cust on the Special.
