"I CAN'T AFFORD TO VOTE REPUBLICAN!"

UNDER THE REPUBLICANS
 One thing sure, the prosperity of this country is based on the number of dollars in the pocket of just ordinary folks—not on the big incomes of a favored few. The Republicans haven't been for the average farmer, the small business man, and the wage earner. The Republican candidates today are pledged to a continuation of the same old policies—including Deane's farm policies. The only way to spread prosperity to all of us get our share is to get Deane and the rest of the present Republican policymakers out of office at Washington.

UNDER THE DEMOCRATS
 Democrats in Congress proposed raising personal income tax exemptions to give tax relief for everybody. The Republicans voted down tax relief. Both Democratic candidates for the Senate favor 8000 tax exemption.

Average person's take home pay increased 20%, stockholders' income rose 20%—far more for both of us. Under the Democrats all the people prosper.

Farm income fell 15%
 Prices received by farmers fell 15%
 Parity has been below 90% now 82%

The small farmer has been discriminated against in the whole income tax system. He has tried to get the small Kentucky tobacco grower out of the picture.

Total national income rose 10% during the last three Republican years. The Republican platform offers no help for the future of our people.

Total national income rose 30% during the last three years of the Democratic Administration. The Democratic platform is pledged to help all the people.

Democrats have fought to restore farm 80% supports. Kentucky Democrats have fought tobacco farmers against Deane.

THAT'S WHY I'M VOTING THE STRAIGHT DEMOCRATIC TICKET NOV. 6
