Christian Church Activities

The C.W.F. will have their pre-Easter candlelight service at the church Thursday evening April 18 at 7 o'clock.

The ladies of the church are sponsoring a food sale Saturday.

There will be an Easter egg hunt on the church lawn Sunday afternoon at 2 o'clock for all the children of the community.

TCA solution controls Star of Bethlehem pest

The herbicide TCA worked best of several materials tested the last 3 years by the Kentucky Agricultural Experiment Station in controlling the lawn pest, Star of Bethlehem or Snowdrops.

The plant was introduced into America as an ornamental but now has become a lawn pest. It reproduces generally from underground bulbs and can cover entire lawns. It germinates in mid-January usually, and tops die out in May; then lawns are just brown expanses during late spring and summer.

James Herron, Botanist, said one pound of TCA in 5 gallons of water is the proportion where a sprinkling can will be used for application. Sprinkle 5 quarts of this solution on each 100 square feet of lawn area. If a garden sprayer is used, mix 1 pound of TCA in 1 gallon of water; spray 1 quart of this solution on each 100 square feet of lawn area. He recommends March or April for this treatment.

Herron noted that generally 100 percent kill is NOT obtained with one application; later applications may be necessary.

Where patches of lawn only are infested, dig up the area and be sure to get all the underground Star of Bethlehem bulbs. Burn them or be sure they are destroyed.

Star of Bethlehem will crowd out grasses, Herron said, if it once gets a foothold. The pest apparently is spreading rapidly, the station is receiving more calls for control measures from home-owners.

Treating in March or April allows the TCA to dissipate from the ground by September or October. Then grasses may be safely seeded in the treated lawns. TCA based at the above rates may sterilize the soil from 60 to 90 days.

Leaves of the Star of Bethlehem are narrow and flat; usually the midrib is marked by a white line from base to end of the leaf. The plant puts out a small, star-shaped flower.

The Senior Play, "The Little Dog Laugher," is to be given tonight and a large crowd is expected to attend the play. If you do not have a ticket, there are plenty of good seats left so get one from any of the Seniors. The cast and Mrs. Wesley have worked hard in getting up the play and from all indications it will be one of the best that has ever been put on at N.C.H.S. Get your tickets and come on out and enjoy the evening.

Donnie Hillock signed a Grant-In-Aid at Easter State College last week. Donnie, who several times during the regular season pulled the team together and added spark to the whole ball club is the second Bluejacket star to sign a Grant-In-Aid. Ned Jennings signed one with U.K. last month. Donnie will also get a tryout with the powerful and ever popular Cincinnati Redlegs.

Congratulations to Mrs. J. C. Tedder upon being selected as The FHA Chapter Mother, at the Mother-Daughter Banquet last Tuesday night.

The Pride of Nicholas will be out this week as scheduled However, a new staff was appointed due to the fact that most of the scheduled staff has a role in the play. The new staff is: Editor-in-Chief. Carlos Bromagen. Managing Editor. Lida Davis. Copy Editor, Gertrude Mynear. Sports, Donnie Howermale. Reporter, Stanley Rose; and News Editor, Dorothy Bromagen. Typists were Ida Broderick and Gertrude Mynear, Janice Morris, Clifton Ritchie, Carole Hamilton and David Small.

Next month's staff will be the regular scheduled one for this month.

Thursday and Friday was a Spring Vacation for the students of NCHS. However the teachers attended KEA at Louisville.

Time to plant Strawberries now

April is the best time to set out strawberry plants, whether they are to be for home use or a commercial planting.

There is a reasonable supply of virus-free Kentucky grown plants available, says W. W. Magill, UK Agricultural Extension Service fruit specialist. The two most popular varieties are Pocahontas and Tennessee Beauty, both well adapted to Kentucky. Pocahontas, available only a few years, is a high-quality and high-yield variety. Blakemore is still a good variety, Magill says, but yields generally are under those of Pocahontas and Tennessee Beauty.

For home and freezer use Magill recommends setting 100 plants in rows four feet apart. Plants should be set about 3 feet apart in the rows.

Magill suggests that 1957 is a good year to plant an acre or two for the 1958 harvest season.

Land grants were offered at 10 cents per acre in 1811 to encourage building of iron and salt works in Pulaski and Wayne counties.

COMMENT

It is estimated there are about 3,000,000 bird watchers in the United States actively participating in this hobby. That is not counting another 10,000,000 of us who enjoy watching the robins and red birds in our own yards. We have a pair of red birds building a nest near our house and I have had lunch late twice already and they haven't even got their nest build.

This year, Beezie Clark (Mrs. Emery Clark Sr.) has bought a bird book to study as she watches.—K.T.F.

Sunday Sermon

CHRISTIAN SCIENCE

The vital importance for men today of Christ Jesus' victory over death will be emphasized at Christian Science services Sunday.

Readings from the King James Version of the Bible and from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will comprise the Lesson-Sermon entitled "Doctrine of Atonement." From John will be read the account of Christ Jesus' crucifixion and resurrection.

Correlative passages from Science and Health include the following (45:16): "Glory be to God, and peace to the struggling hearts! Christ hath rolled away the stone from the door of human hope and faith, and through the revelation and demonstration of life in God, hath elevated them to possible attonement with the spiritual idea of man and his divine Principle, Love."

The Golden Text is from 1 John (4:10): "Herein is love, not that we loved God, but that he loved us, and sent his Son to be the propitiation for our sins."
