COMMENT

It seems from the number of traffic accidents each year that the Motorist having been saved from the mud of yesteryear is now crying to be saved from the muddle of congested highways of today.

* * *

We keep hearing and reading explanation of the current phrase "tight money." If you really want to know what it means, just ask the small business man.

Now that March, the kite flying month is here let me warn you to keep your kites away from all wires. For an extra thrill make your own kite from old newspapers and a tail of bright colors made from the scrap bag (Or am I too old fashioned?)

Project Work

By Katie Lou House

The most important aspect of 4-H Club work is the project work. The experience which we receive from our project work now will be very useful in the future in homemaking, farming or whatever profession we might choose.

The purpose of a project is to teach us new and better methods of last week in 4-H Club and on the farm. In order to meet adequately the needs of 4-H Club members under the varied farming conditions in Kentucky, 42 projects have been planned. For each of these projects, there is a booklet of information.

We may select projects best fitted to our individual needs and conditions. To carry any project to a satisfactory completion requires work, but it is not drudgery and there are many pleasant features in connection with it. We strive "To Make the Best Better" through our 4-H project work.
