Week-Night Meetings—

Bible Study and Prayer Service, March 20. Mrs. Maude Seaman, Leader.

Senior Christian Endeavor social at church March 21.

Follow the crowds to the Christian Church — You'll be glad you did.

CHRISTIAN SCIENCE

The fact that the man of God's creating is not at the mercy of accidents, chance, or discord of any kind will be emphasized at Christian Science services Sunday.

Scriptural readings in the Lesson-Sermon on "Substance" will include the account of Paul's healing of Eutychus "who fell down from the third loft, and was taken up dead" (Acts 20:7-12).

Selections to be read from Science and Health with Key to the Scriptures" by Mary Baker Eddy include the following (424:5): "Accidents are unknown to God, and immortal Mind, and we must leave the mortal basis of belief and unite with the one Mind, in order to change the notion of chance to its proper sense of God's unerring direction and thus bring out harmony."

The Golden Text is from Ecclesiastes (3:14): "I know that, whatsoever God doeth, it shall be for ever: nothing can be put to it, nor any thing taken from it."

SENIOR ENDEAVOR ELECTS

The Senior Christian Endeavor Society of the Carlisle Christian church was recently reorganized and elected the following officers to serve for this year: Kelley A. Kinnett, president; Billy Hopkins, vice-president; Becky Barlow, secretary; Maxene Dotson, treasurer; Emma Lou George, reporter.

The officers met Monday night with the Rev. L. E. Kineman. They selected committees and decided on a social for Thursday, March 21.

Deaths

Mrs. Florrie Ann Wagoner

Mrs. Florrie Ann Wagoner, 75, wife of Homer Wagoner, died at Haywood Hospital, Maysville at 2:15 Wednesday morning after a long illness.

She was a native of Nicholas County and moved to Elizaville years ago. Member of the Rose Hill Methodist church. she was the daughter of Oliver and Louisa Morris Wagoner.

Besides her husband, other survivors are three sons, Elza Wagoner, Johnson Station; Yancy Wagoner, Maysville, and J. J. Wagoner, Nepton; one daughter, Mrs. Russell C. Hanson, Danville, Ill.; two stepsons, W. H. Wagoner, Fleming county and Albert Wagoner, Robertson county; one sister; Mrs. Bruce Buckley, Paris; two brothers, Ben Wagoner, Nicholas County, and Wm. H. Wagoner, Paris.

The body will be at Price Bros. funeral home in Elizaville from 10 a.m Thursday until 9 a.m. Friday when it will be brought to the Mathers-Shearer chapel and remain until 2 p.m. when funeral services will be conducted by the Rev. Tommy Fryman, pastor of the Nepton and Bethel Methodist Church. Burial in Carlisle cemetery.

Pallbearers will be Wilson Darnall, George Weddell, Dye Spencer, James Archdeacon, Ray Letton and Eddie Taylor.

Five point production program recommended

"Apply 800 to 1000 pounds of 0-20-20 fertilizer or its equivalent per acre now on strawberry fields to be harvested this year" said W. W. Magill speaking at the strawberry meeting recently.

Mr. Magill is horticulture specialist with the University of Kentucky. His "now" be had reference to "late February or early March."

Other fertilizer analysis given by Mr. Magill as being recommended included 0-30-30 and 20% superphosphate. He also stated that the rate of application given above should be adjusted for each individual farm depending on the fertility of the soil, condition of the plants and the amount of fertilizer that had been used before February and March.

A five point production program was given by Mr. Magill. Following are his recommendations: (1) Get virus free plants, they are healthier and grow better. (2) Control soil insects. This is done by broadcasting an insecticide on the soil 1 to 2 weeks before setting the plants. Materials to use are Chlordane, Aldrin or Heptachlor. (3) Set the plants properly, avoid "bent root." (4) Mulch at the proper time. "Mulching" he said "is a must in producing berries for fresh market." Immature sudan grass is a good mulch material (one acre will make growth for mulching 2 to 3 acres of berries). (5) Control insects, disease and weeds.

Magill stressed the importance of following recommendations in regards to time, amount of material and method of application when using sprays and dust.

Crag herbicide for weed control—to cite one—should not be used sooner than ten days after the plants are set. Then the rate of 2 to 3 pounds per acre covered should be followed.

Sprays including malathion, DDT and capatan for control of insects and disease in bearing fields should be applied at early bloom and again at general bloom.

Gas refund to Carlisle exceeds $2,000

The Power Commission Monday announced approval of a rate case settlement under which Central Kentucky Natural Gas Co and Kentucky Gas Transmission Corp., both of Charleston, W. Va., will refund $1,779,938, plus interest, to nine wholesale natural gas customers in Kentucky and Ohio.

The proceedings involved two rate increases, filed by Central Kentucky in 1954, totaling about $3,452,000 a year. They were suspended in May and December 1954 but were put into effect, subject to refund.

The refund is to cover the period from Nov. 1, 1954 to Dec. 31, 1956.

Central Kentucky and Kentucky Gas are both subsidiaries of the Columbia Gas System, Inc. Since Jan. 1 Kentucky has taken over the interstate operations of Central Kentucky.

The commission said the settlement was agreed to by all parties.

Among customer companies which are to get refunds within 45 days, plus 6 per cent interest was Carlisle, Ky., $2,080.

The Red Cross

Your neighbors are coming to see you this month. They will give their time and energy to give you the opportunity to help others. They know that you would like to go and give aid and comfort to everyone of your fellowmen who will be in the disaster areas this next year. And they will make it possible for you to do so. Because you gave last year the local chapter along with the National Chapter rushed money and other items to the disaster areas of the world including our near neighbors in the Kentucky mountains. I know that you will have your gift ready with a welcome when your friend calls to receive it. In addition to the Good Neighbors listed in last weeks paper—Miss Louise Roundtree will help in the campaign at Ellisville. Mrs. Lovell Holler, the chairman and Russell Alexander-vice-chairman have asked that the workers who have not received their materials will call for them at the Red Cross office at once.

Crippled children Easter Seal drive begins March 21

Six-year-old Gordon Ray Taylor, Kentucky's 1957 Easter Seal child, is a would-be Boy Scout with a problem.

He needs extended medical and convalescent care so he will be able to keep up with the rest of the active Scouts in a few years.

Ray's right foot was run over two years ago by a concrete mixer. It was very badly injured...He has had treatment to help it, through a series of casts and through surgery. More surgery is to come.

Ray, son of Mr and Mrs. Lewis Taylor of Mt. Sterling, is a patient of the Kentucky Crippled Children Commission. He has spent nearly five months at Cardinal Hill Hospital, Lexington, an Easter Seal center operated by the Kentucky Society for Crippled Children.

The lad's picture will appear on Easter Seal letters, to be mailed by the Kentucky Society for Crippled Children during the March 21 to April 21 Easter Seal campaign.

"With proper treatment and training, many youngsters handicapped by accidents, or by disease or deformity, can overcome their problems," McElroy said.

"Treatment is something that cannot wait, because the earlier a crippled child has care, the better are his chances of recovery. The Easter Seal campaign is held every year to make sure that more Kentucky children have the treatment they need," McElroy said.

Property transfers

Gilbert Reid and wife to Raymond Hall and wife, lot on Eastern avenue.

Allein Clark to Malcolm Wills and wife, 81¼ acres on Upper Dunlsher Creek.

Ernestine Gaunce to Francis Grimes, 51 acres on U. S. Highway 68.

M. Glenn Booth and wife to Russell Wills, 90 acres.

W. F. Clark heirs to Ratliff Bros. Inc. lot on Water street.

W. F. Clark heirs to Emery Clark, 140 acres on U. S. Highway 68.

Y. L. Allison Sr to Daniel Burden and wife, 22 acres on Parks Ferry and Lower Blue Licks road.

Wool incentive provisions listed

Roy C. Gray, chairman of the Kentucky State ASC Committee, announced today that provisions of the 1957 wool incentive program will be the same as for the current marketing year.

The 1957 program will apply to wool and lambs marketed during the April 1, 1957 to March 31, 1958 period. The shorn wool incentive price for the 1957 marketing year, as previously announced, will be 62 cents per pound. This is the same as the incentive prices for the 1955 and 1956 marketing years. The payment on shorn wool and lambs marketed with the wool on is based on this incentive price.

As under previous programs the payment rate for shorn wool will be the percentage required to bring the average price all producers receive for the 1957 clip up to 62-cent incentive level. Producers who market wool during the 1957 marketing year will be eligible for a payment which will be an amount equal to the percentage payment rate times the proceeds from the sale of their wool. (For the 1955 clip on which payments were made this past summer, the payment rate was 44.9 percent, which resulted in a payment of $44.90 for every $100 producers received from shorn wool sales.) Payments on the 1957 wool clip will be made in the summer of 1958 when the tabulation of producer returns is completed.

The payment method on lambs will be the same as under the current 1956 program which provides for payments to producers only in connection with the sale of lambs that have never been shorn. Each producer who owns lambs for 30 days or more and sells the lambs unshorn will be eligible for a payment. The payment will be made on the weight increase of the animals that occurs during each producer's period of ownership.

Payments to producers who buy unshorn lambs and later shear them will be subject to a downward adjustment in the shorn wool incentive payment they apply for The downward adjustment will be the amount of lamb payments that previous owners were eligible to receive.

In contrast to the shorn wool payment, the payment rate for shorn wool lambs will be at a fixed rate per hundredweight of live lambs sold 1955 marketings, the payment rate on lambs was 77 cents per hundredweight. This was based on the average shorn wool incentive payment, the average weight of wool per hundred pounds of lamb, and the value of lambs relative to wool in relation to shorn wool.

For payment purposes, the average weight of wool per hundred pounds of unshorn lambs is assumed to be five pounds and the price of lamb wool has been set at 80 percent of the shorn wool value because lamb wool is normally coarser in grade and shorter in staple length. The 77-cent per hundredweight payment rate is five the average weight of wool per hundred pounds of lambs times 15.4 cents which is 80 percent of the difference (19.2 cents) between the average price of 42.8 cents producers received for their 1955 clip and the incentive price of 62 cents. The lamb payment is designed to discourage unusual shearing of lambs prior to slaughter.

The National Wool Act of 1954 which authorizes the wool incentive program also provides for the support of marketing prices. This support price for the 1957 program has been set at 70 cents per pound. This is the same support price as for the 1955 and 1956 programs. No payments were required on mohair clipped in 1955 because the average price was well above the 70-cent support price. Market prices during the current 1956 marketing year have been relatively stable. Continued also been running above the support price and no payments are expected to be necessary if payments are required, they will be made in the same manner as for shorn wool No payments will be made on market lambs or feeder lambs.

Producers are urged to keep their accounts of sale in a safe place because these documents which must be attached to the application when the producer applies for shorn wool and unshorn lamb payments. These accounts of sale must have the information needed to support the producer's payment application. Applications should be submitted to county Agricultural Stabilization and Conservation Offices. These offices will also make the payments in the summer of 1958.

Producers are also urged to get the best possible price in selling their wool. Under the percentage method of payment, the higher return to individual producer gets in the market the larger his incentive payment will be. This method is designed to encourage producers to do the best possible job of marketing their wool.

Even though prices for domestic wools have gone up 25 cents per clean pound on the average during the past year, prices are still lagging behind the price for comparable foreign wools. If payments improve their marketing operations this gap will be narrowed further.

USDA officials point out that during the past year some domestic wool prices have been rising in relation to foreign wool prices, the Commodity Credit Corporation has been able to dispose of a considerable higher prices about 75 million pounds of wool in the inventory acquisition under past price support wool loan program.

Hopkins Drug Co.
Phone 18 Carlisle

Savings Bonds indestructible

The sale of Series E and H Savings Bonds in Nicholas County during January, amounted to $6,625. The county's sales goal for 1957 is $60,760.

In Kentucky, sales for the same period amounted to $5,691,920. The State's goal for 1957 is $60,603,040.

The floods in Eastern Kentucky have brought grim disaster to whole communities in that section of our State.

Edward H. Hilliard, State Volunteer Chairman for Kentucky, sends this word of comfort to the people in that area who own U. S. Savings Bonds:

"These bonds are "Absolutely Indestructible." The Treasury Department will replace any Savings Bonds that are lost, stolen or destroyed. It is only necessary to either secure Form PD 1048 from a bank, or write direct to the Bureau of the Public Debt, 536 South Clark Street, Chicago 5, Illinois.

"It will save time if the serial numbers of the bonds, issue dates, name or names and address, are known. But, in any event, the owners of U. S. Savings Bonds are completely protected against any loss in these bonds."

IN LOUISVILLE

Dr. B. F. Reynolds, Health Officer of Nicholas County Health Department will be in Louisville March 12, 13, 14 and 15 attending the annual meeting of the Kentucky Public Health Association.

All members are asked to attend. The meeting will begin at 7:30 p.m.

CHERRY BALUSTRADE—The cherry stair rail shown above is

from the old Joseph Tureman home in Paris which was razed last year to make way for the Baptist education building. The railing was donated through the courtesy of the Capital Baptist church for the restoration of the Anne Duncan House in Paris—the second building of the Historic Center to be restored by the Kentucky Society Daughters of the American Revolution.—Photo Paris Daily Enterprise
