SUNDAY School Lesson

CHRISTIAN SCIENCE

The spiritual basis of true grace and beauty will be emphasized at Christian Science services Sunday.

Bible passages to be read in the Lesson-Sermon entitled "Soul and Body", include the following from Psalms 90:16, 17: "Let thy work appear unto thy servants, and thy glory unto their children. And let the beauty of the Lord our God be upon us: and establish thou the work of our hands upon us; yea, the work of our hands establish thou it."

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy will be read the following (247:19-24): "Comeliness and grace are independent of matter. Being possesses its qualities before they are perceived humanly. Beauty is a thing of life, which dwells forever in the eternal Mind and reflects the charms of His goodness in expression, form, outline and color."

week, a Strawberry marketing meeting was held at the George Marshall Farm on U. S. 68. "How To Prepare Strawberries for Market" was the subject of the meeting.

Local Production May Be Less Than Expected

About every grower has reported some damage from the late frost which has resulted in the destruction of some 10 to 40% of the blooms and also some damage to young berries that were beyond the blooming stage at frost time. The frost damage has also contributed to considerable soft rot of the earliest produced berries. This condition will improve with more sunshine.

The following local producers have berries for market in Nicholas County this year Adult Farming: R. B. Burton, Jr. H. P. Alexander, Harry Galbraith, Harold R. COMMENT

I forgot to mention last week that Mrs. Ruffin presents a view of the plantation. Evelynton raises peaches as a hobby. When we drove up the tree lined driveway there on the lawn to greet us was the beautiful and spectacular sight of more than two dozen peacocks. Each one strutting around displaying his colorful plumage. I must say the peahens seemed oblivious of them and of us.

Now to move on to Jamestown. Just before reaching it we had lunch at the Chickahominy Inn a charming roadside spot where antiques, gifts etc. could be purchased and best of all a most delicious lunch of Virginia ham, hot biscuits, fruit salad, pie and coffee was served.

Our first stop after entering the Festival Park was the Festival Viewing stand. From there one can see most of the New Jamestown buildings which include a reception center, the "Mermaid Tavern," a buffet type restaurant, an Old World Pavilion, a New World Building and many other interesting ways of the 32 acre grove which is the New Jamestown Festival Park.

I couldn't begin to tell about each display but the Old World Pavilion was the most interesting to me. Here the British government has an exhibit which includes the Magna Charta, the town crier's bell "symbol of liberty" presented to Sir Winston Churchill by the trustees of Colonial Williamsburg. There is also the first King James version of the Bible, the original manuscripts of William Shakespeare and many other items that will be on display until November 30 when they will be returned to private homes and public collections in Britain.

Next was the New World building in which Virginia vividly shows America's achievements.

There is a reproduction of James Fort with a score of houses of crude wattle and daub construction." Soldiers in authentic costume "garrison" the fort. Further on you come to the remains of the early glass works. The glass works was America's first industry. One can see the glass blower fashion souvenirs for the visitors.

I was disappointed that the full-scale replicas of the three ships, the Susan Constant, Good speed, and Discovery were not off shore in the James River. However I understand that on May 3 they were brought to Jamestown and are manned by sailors in regalia of the time and can be boarded by visitors.

By bus one can go to Jamestown Island to visit the ivy covered tower of Jamestown church dated 1639. I am sure anyone who visits the Jamestown Festival will be impressed by the color and pageantry of this historic celebration.

Scientific film to be shown county high school students

A scientific film, "Our Mr. Sun," is to be shown to the students at the Nicholas County high school this morning by personnel of the Southern Bell Telephone and Telegraph Co.

The film is scientific in nature and was developed by the Bell System. It stars Eddie Albert and the narrative voice is that of the late Lionel Barrymore. "Our Mr. Sun" was originally shown on TV, and this color print is the only one in Kentucky.

The film deals with the generation and the transmission of sound, heat and power and specifically explains the tremendous amount of power generated by the sun and how it might be harnessed for the use of mankind in the future. Emphasis is placed upon the need for more trained scientists to carry on the ever increasing work necessary, plus research work.

Carlisle 4-H Club

The Carlisle 4-H Club met Thursday at 2:30 p.m. in the science room for the regular monthly meeting. Katie House presided and Wanda Lawrence led the club in the flag salute and the singing of the club pledge and America.

A short business session followed after which Rose Ann Simons led the program.

Judy Whiteley gave an echo from the County 4-H Rally Day activities and Judy Hopkins told about the District Rally held at Kirksville on May 4.

Rose Ann discussed Dairy Month which will be in June and how we 4-H'ers could do our part by using more dairy products. She commended the club members for giving such demonstrations as Cheese Cake, Milk Drinks and Cream Whips at the recent Rally Day.

It was then decided to honor the four graduates, Betty Vice, Cordelia Gilley, Wanda Lawrence and Sylvia McCarty and
