Weathered hay crop might go to silage

Hay crops that farmers can't cut early properly because of continued rains just might be used for silage, says a specialist in the Kentucky Agricultural Experiment Station animal husbandry department.

W. P. Garrison, animal husbandry specialist, says that silage is a good use for weathered hay. It can be used for silage, and it will feed well. Silage is a good use for weathered hay. It can be used for silage, and it will feed well.
