Kills care of children

Bureaucrats cause more injury and death among children than any other agency. Every parent should know how to identify and treat them.

This point is stressed in an American Medical Association publication. It provides every simple but vital rule.

Youngsters will grasp everything without need to never allow conditions to exist which can lead to accidents. They watch from children; keep pots from the edge of the stove, and keep youngsters from fire.

Determine quickly the degree of burn in a first degree burn the skin is red, in second degree the skin is blistered, in third degree the skin is charred.

For first or simple second degree burns, call a doctor for medicine. For second or third degree burns, call a doctor immediately. Shock or infection may occur. A layman should not attempt to treat burns of these types.

Compelling parallel

The Internal Revenue Service has issued a ruling which will have a compelling parallel in that private utility companies that operate their plants in the United States may not be considered as defensible business concerns for purposes of the National Labor Relations Act.
