50 ACRE FARM
SATURDAY, JANUARY 4th
AT 10 A.M. (C.S.T.)

As agents for Rev. Arnold Harris, we will sell on the premises, his farm, formerly known as the Jimmie Farley home place, located on the Johnson Road, 1 mile North of Saltwell and 10 miles N.W. of Carlisle. The accessibility to churches, schools and farm markets, combined with small acreage and productivity really makes this farm highly desirable. The farm contains 50 acres of strong blue grass limestone soil, mostly all in grass and ready for cultivation. Several acres of bottom land. Ample water supply and good fence. Tobacco base.

Has a comfortable and well constructed 4 room home. Supplied with electricity. Tobacco barn, garage, meat and poultry house, good cellar.

Interested parties will be shown the farm by the agents or by Woodrow Gaunce at the home on the farm.

Vice announces '58 acreage reserve program for spring-planted crops

General provisions of the Soil Bank's Acreage Reserve Program for 1958 spring-planted crops are the same as were announced this fall for the 1958 crop winter wheat, H. S. Vice, Chairman of the Nicholas County Agricultural Stabilization and Conservation Committee announced today

The Acreage Reserve is the part of the Soil Bank under which farmers agree to reduce their current year's acreage of "basic" crops of upland cotton, corn, wheat, and tobacco below their established acreage allotments, the Chairman explained.

In return, growers earn payments which maintain net income for the land put in the program.

For 1958, the per-acre payment rates for "allotment' land put in the 1958 Acreage Reserve are somewhat higher for most crops than the rates which were in effect for 1957. Changes in the 1958 national average per-acre rates are due to adjustments because of the trends in crop yields, Mr. Vice explained.

Per-acre rates for the individual farm will be determined from the county average figure.
