Most alcoholics unrawing abnormal
 By J. C. Ellis King, Executive Director Kentucky Commission on Alcoholism.
 The word "alcoholic" in the average person's mind connotes a man who is drunk. In fact, however, the alcoholic is a man whose metabolism is abnormal. The alcoholic is a man who has a certain amount of alcohol in his blood which produces an abnormal reaction. The alcoholic is a man who has a certain amount of alcohol in his blood which produces an abnormal reaction. The alcoholic is a man who has a certain amount of alcohol in his blood which produces an abnormal reaction.
