COMMENT

Key T. Fisher
It's a little hard for me to get my mind down to earth and in a working mood. Now I am more convinced than ever that October is the ideal month for a holiday of course if you don't mind sand in your shoes, a sunburned nose and limp cold dresses. July and August are good vacation months. But October is beautiful! The weather is usually fair and clothes are more interesting. I was lucky each day was October weather in perfection.

Now back to work. On Tuesday I came to work I noticed Mr. Babney Smith had his flower plot in the front of his house all worked and ready. Each spring I watch that plot for the first flowers of the year. Each spring I watch that plot for the first flowers of the year. Each spring I watch that plot for the first flowers of the year.
