Newspapers and TV

Last year was a very bad year in the U. S. automobile industry. Sales were far below both past and anticipated levels. There was not one exception—American Motors, with its Rambler car, whose sales topped an astonishing 70%.

"It seems to us that the coincidence—the manufacturer placing the largest percentage of his advertising appropriation in television and having the largest percentage gain in sales together with the fact that the only manufacturer who spent more than \$20 million in advertising in newspapers, and absolutely nothing on TV."

"Let private enterprise do it!"

The American people can expect no slackening in the growth of the federal government's size and scope of operation.

Summer's Observation
When most "Yapppin'" readers were young, little boys were the lawbreakers, dominating long hours of their lives because they were 12 or 13 years old and I spent a whole hour in the yard with my boys, who were the long pants. Now our little boys have grown up and are the long pants and men the knee breeches."

IN TRADITION

When he became a member of that committee, he kept going a Kentucky tradition. It is more than 100 years that body has never been without a Blue Grass congressman.

A GOOD ORGANIZER

A good many folks wondered how the Nicholasville man has done the time. Those who know him know he is a good organizer.

I lift up my eyes to the hills. From whence does my help come? My help comes from the Lord, who made heaven and earth.

Yes, Christ Left Us a LIVING Witness

Our Lord, God of comfort, that in former generations His teaching has been so often misunderstood and even changed.

PRAYER: Our Father, we thank Thee for the beauty of the out-doors.
