Cakes keep in freezer

Most kinds of cake keep well in the freezer, USDA Agricultural Research Service scientists have found.

Five kinds of cakes—chocolate and yellow layer, angel food, pound cake—were judged by taste panels. Chocolate and yellow layer cakes keep "crisply fresh" slightly longer than the others, they decided.

Freezing does not change the flavor in cakes, the researchers noted, but all cakes gradually lose flavor in frozen storage.

First signs of flavor loss were noticed in chiffon cakes after one week of frozen storage, in angel food cakes after two weeks, chocolate layer cakes after three weeks and yellow layer cakes after eight weeks.

After a month's storage, all three degrades of chocolate and yellow layer cakes were still rated superior to similar but unfrozen delectable cakes. Angel food cakes frozen for two weeks were rated by the taste panel as being more moist or crumbly after four days of storage. However, once and those from three

was played Tuesday afternoon by Mrs. Mary Adams of Niagara Falls.

Two weeks rehearsal began at the Little Rock Christian Church Monday night with the Rev. William Nash, Director of Public Relations, in charge. Christian College, Evansville, and Miss L. Vera Kenna, director. The Rev. Ed. Tamm is minister of the church. While there they have visited many places of interest.

THE CALENDAR tells us there's a holiday ahead—the Labor Day weekend. And this makes me think of two things—a good time (which I'm sure we're all planning) and safety.

SAFETY ON THE HIGHWAY will be especially important this year. There are more cars on the roads today than ever before in history—and you can count on it that most of them will be out over Labor Day. So, take care and drive carefully this year.

AND ON THE LIGHTER SIDE of safety and warning, if you're going away for Labor Day, "Joy is safe" and "Love falls off your arrival. A Long Distance call will receive accommodations help you plan your visit with out-of-town friends and family. Remember when calling Long Distance, it's cheaper to call station-to-station—rather than you know the number.
