Regor W. Bobson's business and financial forecast for 1939

1. Not too good and not too bad. Both the boom and the recession will be amazing developments following the recent election. The 1939 year for Congress. Both parties will be in a hot race. The Republicans will want good business. Most Democrats will vote for more of the industrial legislation, but only a few of them will vote for such legislation over the President's veto. The Democrats will be in a dilemma. In three years they will not want good business in 1940, but they must be very careful not to do anything which could be held against them in 1940.
