material. Aluminum wire allowed 59.8 percent of the heat from the sun to pass through, galvanized metal wire 56.4 percent and louvered aluminum 16.5 percent.

These screens made little difference in the amount of air movement but quite a bit in the amount of light, she points out. Louvered aluminum allowed only half as much light to come through as the other two, but it offers privacy, since it is easy to see out but difficult to see in.

Louvered aluminum tears more easily than the other screenings. Galvanized wire must be replaced more often because of rust than the aluminum. It is usually the least expensive of the three and louvered aluminum the most expensive. Mrs. Lickert concludes.

Mercury wins best all-around award

Second place for best news pics

At the annual mid-summer meeting of the Kentucky Press Association at Kentucky Dam Village State Park Friday evening, The Carlisle Mercury was awarded a citation and plaque for excellence in the annual newspaper production contest for first place for the best all-around newspaper, weekly division, under 1500 circulation. This is the second time The Mercury has received this honor.

In addition, The Mercury was awarded second place for the best news picture production, weekly division.

Mobile X-ray unit here June 18, 19

The X-ray trailer, donated for use in Nicholas and surrounding counties by the Benevolent and Protective Order of Elks, will be in Carlisle June 18 and 19. Everyone 20 and over is urged by the Nicholas County Health Department to visit the trailer. Persons who have had close contacts with TB cases and have positive tests are especially urged to have an X-ray made.

According to Jack T. Morford, M.D., Chairman of the Nicholas County Board of Health, a positive skin test does not mean that the individual has tuberculosis. It does indicate however, that he may have been exposed to some person having active tuberculosis.

No person under 20 years of age is to come for an X-ray unless he has had a positive skin test. Dr. Reynolds, Health officer, said this week. Exceptions will be made only at a physician's request. Also no woman in the first three months of pregnancy can be X-rayed at the mobile unit. Other pregnant women' may come if they have had a positive skin test reading.

Teachers, restaurant workers, foodhandlers and all others in contact with the public are urged to take advantage of the Mobile Unit.

The following is recommended by the Nicholas County Health Department:

0-19 years, X-ray only with positive skin reading; 20 years and over annual X-ray.

Youthful driver

Bruce Morrison, 2-year-old son of Mr. and Mrs. Jack Morrison, Sycamore Hill, believes in driving at an early age. Young Bruce, playing in the front seat of his father's station wagon with two other youngsters Sunday, managed to place the gears in neutral. The car, parked in the sloping driveway came to rest against the fence, much the worse for Bruce's first attempt at driving. None of the occupants of the car were injured.

Little League Week June 14-20; double header Tuesday, June 16

Carlisle and Nicholas County will join the nation-wide Little League movement in celebrating its 20th anniversary during the week of June 14-20 with a National Little League Baseball Week.

Tuesday, June 16 has been set aside as Little League Foundation Day. On that date a double header will be played.

First game—Athletics vs. Bullpup

Second game—Cubs vs. Flyers

A big celebration is being planned for that day. An attempt will be made to get the Carlisle high school band together to play during the games. Plans also call for pregame activities such as a track meet between Little League players, and a brief program consisting of talks by Mayor William Power and officials of the Nicholas County-Carlisle Little League.

All parents of Little League players are urged to make a (Continued on page 4)

TREATED FOR INJURIES
Cash Clark, 41, of Carlisle was admitted to the Bourbon County hospital at 1 a.m. Monday for treatment for injuries suffered in a traffic accident in Nicholas County. Attendants said Clark suffered head, body and possible internal injuries. He is an employee of the Hinkle Construction Co. of Paris and is stationed in Ohio on a job being done by Hinkle. The accident occurred near Barterville, attendants said.

Featured—Edgar Darrell and sons, Emmett and Edgar Allen, will be featured on the "Willing Acres" radio program over WLW, Cincinnati, Saturday, June 13. It will be included in the broadcast of "Chorettime", which is heard from 6:00 to 6:45 a.m. EST. Bill Miller, Farm Program Director for WLW, joined Bill Straw, County Agent, and Bill Threlkeld, Soil Conservation Service, in interviewing the Darrells. The program will feature the father-son relationship and their farming operations which are based on the production of tobacco, pasture and livestock.

Alumni elects

The annual banquet of the Nicholas County high school Alumni Association was held Friday night in the cafeteria of the Nicholas County high school with Donnie Lynam, president, presiding. Approximately 110 alumni and guests were present. The welcoming address was given by Miss Janet Mitchell. Following dinner, a musical program was presented by a band composed of present and former band members of the school.

Officers elected included: President, Calvin Wills; vice president, Janice Morris; recording secretary and reporting, Ileba Wills; corresponding secretary, Phyllis Darrell; treasurer, Anna Lee Gates; chaplain, Faye Letcher.

A bronze plaque, sponsored by the Alumni Association, was presented in memory of the late Willard M. Sandidge, former principal of the school.

24 per cent of Nicholas farmland under AC program in '58, Vice says

Nicholas County farmers used Agricultural Conservation Program cost-sharing to establish conservation practices on 165 farms in 1958, according to H. S. Vice Chairman, Nicholas County Agricultural Stabilization Conservation Committee. The farms participating in the ACP in 1958 contained 24 per cent of the farmland and 27 per cent of the cropland in the county.

ACP assistance for conservation cost-sharing last year totaled $39,588 in Nicholas County. Federal cost-shares averaged about 50 per cent of the cost of establishing the practices when all costs are considered. The balance was paid by participating farmers in money, materials, labor and equipment.

"This public investment of $39,588 resulted in Nicholas County farmers applying more than $79,176 worth of conservation on their land for conserving soil, water as security for the future." Mr Vice said.

The ACP is administered by the Nicholas County Agricultural Stabilization and Conser- (Continued on page 4)
