Services At Cane Ridge

A fellowship of Christian churches of District 12 and 13 met at 7:30 p.m. Sunday at Cane Ridge Church in Bourbon county. The Rev. Robert Ricks, pastor of the Salt Lick Christian Church, was in charge of the program. Dr. Richard Pope, professor of Church History at The College of the Bible, Lexington, was speaker. With the passing years, Cane Ridge looms larger in the fellowship.

When slicing peaches, sprinkle them with lemon or lime juice or drop the slices into an ascorbic acid solution to prevent darkening due to exposure to air

YOU DRAW DIVIDENDS
from every business enterprise in the community where you live

If some good neighbor with a popcorn stand was giving you part of his profits every day...

. . . you would probably give him ALL of your popcorn business . . . you might even try to influence other neighbors to take up popcorn . . . and to buy it at home.

Actually, you DO share in the profits of EVERY business in your home community, because a BIG PART of the gross margin on every local business transaction goes toward the support of things that benefit YOU and everyone else who lives here.

Such as schools, churches, roads and streets, fire and police protection, jobs for more people so that we can keep among us MORE good teachers and preachers and doctors and other skilled folks. And so we can have more stores that are better stocked for our convenience and for our EMERGENCY needs.

Because we don't get these benefits in cash, we sometimes forget that ALL home business is really OUR BUSINESS. And some of us even forget . . . and trade somewhere else . . . when OUR OWN PAYCHECK depends on keeping this community prosperous.

It Pays to Buy where You Live

These twelve Business Establishments Are Genuinely Interested in the Future of This Community and your Welfare—TRADE AT HOME WHERE YOUR MONEY BENEFITS YOU!

Jaycees complete installation of air conditioners at hospital

This week the Nicholas County Jaycees completed the installation of eight air conditioners at the Nicholas County hospital. In compliance with the wishes of the hospital board, the air conditioners were installed in private rooms. This project was undertaken 1 year ago and involved raising $1500 with shows, dances rallies etc. The Jaycees are proud of this accomplishment, but we realize without the support of the citizens of Carlisle and Nicholas County, we could not have completed it.

Special thanks must go to Mathers-Shearer for supplying the air conditioner for the X-ray room. Also to Raymond and Tommy Coy for spending long, hot hours helping install these conditioners without pay. To our newspapers for their help in promoting the fund raising events.

The Nicholas County Jaycees thank all our citizens for making this project a success.

Local Scouts return from Camp McKee

James B. Ledford and the following Boy Scouts of Troop 18, Carlisle, spent last week at Camp McKee in Montgomery county: Jay Morford, Dwaine Green, Larry Hunt, Michael Minton, Douglas Garrett and John Hamilton. The local Scouts received an award for having the cleanest table in the camp John Hamilton, Jay Morford and Douglas Garrett passed tests and were awarded swimming merit badges. Dr. J. T. Morford, W. J. Alexander and John Allison were there during the week to assist Ledford.

Nicholas man jailed after car accident

A car driven by William K. Watkins collided with a car driven by William Getz, Ewing, Route 1, Sunday afternoon on the Cassidy Creek Road about 7 miles east of Carlisle. Mrs. William Getz, a passenger, suffered broken bones in her foot and was admitted to the Nicholas County hospital.

Watkins is being held in the Nicholas County jail on charges of driving while drunk and driving without an operator's license. Sheriff John Asbury said that the date has been set for his examining trial.

ADMITTED TO HOSPITAL

Admitted to the Bourbon County hospital Sunday following an automobile accident was James Robert Bartlett, 18, of Carlisle, driver of the car, who suffered face cuts. Another passenger, Keith Perkins, 17, of Millersburg, nose and head cuts and Donald Ray Watkins, 16, of Millersburg, face cuts.

Health department to hold clinic for dogs Aug. 13

The Nicholas County Health Department will hold a rabies vaccination clinic for dogs at the office of the Carlisle Stockyards on August 13. Clinic hours will be from 9 a.m. to 2 p.m.

The cost of vaccination will be $1.50 per dog for the three year vaccine. Unless an epidemic of rabies occurs, this is the only clinic that will be held this year, but don't wait until an outbreak occurs to have your dog vaccinated. Dogs that should be vaccinated this year include: (1) All dogs that were vaccinated in 1957 with the three year vaccine, (2) All dogs vaccinated in 1959 with the one year vaccine, and (3) All pups that are six months old or over and have not been vaccinated.

The law requires that all dogs in the State of Kentucky must be vaccinated for rabies, and these clinics provide a convenient way for everyone to have their dogs vaccinated.

The clinic veterinarian will be Dr. Clay Currant.

ACCEPTS POSITION

Billy Keen Anderson, son of Mr. and Mrs. Omer Anderson, has accepted a position in the Simon Kenton high school in Kenton County as freshman coach and teacher of History.

Nicholas County Jaycees are last of the eight air condition- night. Air Conditioning the the main project of the Jay-

Glenn Cassity killed in Belt Line crash

William Glenn Cassity, 36, of 641 Vine street, Paris, a contract mail carrier, was killed early Tuesday morning after leaving the Lexington Post Office on his return trip to Paris when his mail truck collided with a trailer truck carrying liquid oxygen.

The collision occurred at the intersection of Broadway and the Belt Line.

The accident happened at 2:44 a.m. Cassity was taken to a Lexington hospital but was pronounced dead on arrival apparently being killed instantly.

State Police said the trailer driver, Howard Paul Burns, 48, Cincinnati, was treated for a head cut and released.

Fayette County Coroner Chester Hager said one of the two vehicles apparently ran a caution signal at the belt line, which was described as "a bad intersection on U.S. 27."

Cassity regularly left Paris around 2 a.m. daily, drove the mail to Lexington and returned to Paris, carrying the mail on to Maysville, where he would arrive about 6 a.m.

Mail was scattered all over the highway following the crash, postal authorities said. A truck was dispatched from the Lexington Post Office to pick up the mail and delivered it on to Paris, arriving there at 9:10 a.m.

Cassity had been a carrier on the route since May, 1958.

A native of Millersburg, he was born Jan. 25, 1924, the son of William M. and Elizabeth Snapp Cassity.

He is survived by his wife, Mrs. Frances Skeen Cassity, his parents, a daughter, Glenna Frances Cassity, two sons, Billy Ray and Kenneth Eugene Cassity, a brother Samuel Stewart Cassity, with the U.S. Navy and stationed in Hawaii, three sisters, Mrs. W. O. Bradley Paris; Mrs. Nellie Myers, and Mrs. Vera Jones, Lexington, and several nieces and nephews.

He was educated in the Paris city schools and is a veteran of World War II, being a member of the Marine Corps.

The body was removed to the Hinton-Turner funeral home.

Funeral arrangements are not complete at present.

MATHERS FUND APPLICATIONS

Mrs. Lovell Hollar will be in the Courthouse to take Mathers Educational fund applications on the following dates:

Aug. 16, 20, 23, 27 from 10:00 a.m. to 3:00 p.m.

Total Receipts 758

Accidental farm death rates connected with machinery, drownings, firearms, and electrical current are increasing. Those associated with animals, falls, lightning, and burns are decreasing.

Reminder

Harry Duncan, local Conservation officer, calls attention to the bag limit and possession limits of the squirrel season which opens Monday, August 15. Bag limit will be six a day with possession after the first day of 12 squirrels.

Freezer demonstration is scheduled Aug. 15

A Freezer Demonstration is scheduled Monday night, August 15 at the Kentucky Utilities Office at 8:00 p.m. Miss Elizabeth Watson, Kentucky Utilities Representative, will show slides on how to freeze various fruits and vegetables. Any interested person is invited to attend.

Does your farm need lime?

Are there fields on your farm which need lime? ACP cost sharing is available if needed.

The 1960 Program is now open to receive applications for this practice. Call at the county ASC office soon—not later than September 15, 1960, and your request will be taken.

Purchase orders are available. The cash outlay on your part is reduced approximately one-half when purchase orders are used. Inquire about this! Soil tests are required. Take a soil sample. Take to the county agent's office and tell him you wish to apply for ACP payment.

Here's why lime is a good investment: (1) It makes your fertilizer worth more. Plant foods become more available when soil acidity is at the right level. (2) Legume as a supplier of nitrogen to the soil needs lime and promotes growth. (3) It supplies calcium and magnesium which are needed for plant growth. Cost-share payment for lime spread is $1.70 per ton.

Remember: 1 Make your application at the ASC Office.

2 Take a soil sample of the field to be limed to the county agent's office.

Lime now—where needed—following small grain harvest —on sod fields or to land which will be worked and seeded this fall.

DUVALL TO ASSIST EX-SERVICEMEN

F. E. Duvall, a Contact Representative of the Kentucky Disabled Ex-Service Men's Board will be present on Friday, Aug. 12, 1960, at the Court House in Carlisle to assist veterans and their dependents with claims for benefits due them as a result of their military service.

He will be here 9 a.m.-3 p.m.

Phone call bounced off moon travels 480,000 miles in 3 seconds

How long can a long distance telephone call get.

One was placed last week that traveled around 480,000 miles.

Scientists from Bell Telephone Laboratories were doing the calling and using the moon to bounce the telephone signals from New Jersey and California.

The signals were beamed from Bell Laboratories Telephone Terminal to Outer Space at Holmdel, N. J., via the moon, to the jet propulsion laboratory in Goldstone, California.

The experiment, witnessed by members of the press, was a success.

SIGN KNOCKED DOWN

The traffic sign at the intersection of Main and Bank Row, Paris, telling motorists about the start of the one-way traffic on Main street was snapped off at 1:05 a.m. Saturday by a car driven by Jefferson Davis Sheldon, 33, Carlisle, who told Paris police he fell asleep while driving north on Main. He was charged with reckless driving. A sign atop a concrete pillar was knocked down in the side, but it was removed after numerous accidents, including a fatal accident. Officers pointed out there were no blinker or warning lights on the sign to warn night motorists.

The first public demonstration of a two-way "moon-bounce" conversation.

The successful demonstration was another step in the aligning and testing of radio transmitters and receivers designed for use in satellite communication experiments. These experiments will be conducted in cooperation with the National Aeronautics and Space Administration (NASA).

The successful completion of these experiments would be a major step toward the eventual establishment of a satellite communication network to carry telephone calls and television programs throughout the world.

A plan for such a network was outlined recently by the Bell Telephone System in testimony filed with the Federal Communications Commission. The plan calls for about 50 active satellites in random polar orbits at an altitude of 3,000 miles. Such a system, says Bell officials, could provide communications facilities between the United States and "all areas" of the world.

In last week's demonstration of the "moon-bounce" conversation, the signal from Holmdel traveled at a speed of light but still took almost three seconds to complete the trip of nearly

(Continued on page 4)

Nicholas County schools to open September 12

The Nicholas County Schools will open for instruction for the 1960-61 term on September 12. The teachers will have two days of conference prior to the opening on Thursday, and Friday, September 8 and 9.

In addition to new teachers already employed, the Nicholas County Board of Education has recently employed Elmer Bellamy as principal of the Nicholas County Grade School. Mr. Bellamy has an A.B. degree from Eastern State College and is now a graduate student in the same institution. He has been teaching in the Hazard School System before coming to Nicholas County. Mr. Bellamy served in the Korean conflict before becoming a teacher. He is married to Jean and his wife will move to Carlisle in early September.

The Board has also employed Mrs. Allyn Fay Lovett to teach the first grade in the Nicholas County Grade School. Mrs. Lovett attended Southwest Missouri State College in Springfield, Missouri. She is a graduate with an A.B. degree from Drury College, Missouri. Mrs. Lovett is taking part of her art work. Mrs. Lovett will come to Carlisle in September with her husband who has been called to minister of The First Christian Church (Disciples of Christ), Carlisle.

A crew has been working daily on the school buildings throughout the County in order to have them in condition for the opening of school. Many improvements and repairs are being made and all of the equipment purchased under the provisions of the National Defense Educational Act has arrived. The equipment will be used in teaching Science, Mathematics and Modern Languages.

PROPERTY SOLD

Mr. and Mrs. W. C. McCracken have sold a home on Wilcox Avenue, Paris, to Mr. and Mrs. Guy Bell of Carlisle. Immediate possession was given. The sale was handled by Cleary Flightmaster of Carlisle.

ONE-WAY RUT—The Hickory Ridge Road, connects U.S. 68 with the Stony Creek road and in turn Ky. highway 32, north of Carlisle, two families with children of school age live along the route, the school bus won't use it—milk truck won't transverse it, but members of the Nicholas County Fish and Game club risk their necks each time they go to their clubhouse. When it snows the road is absolutely useless. The road was surveyed during the Chandler administration in 1957 and hopes were high that something would be done, according to Dorsey Watkins, club president. Watkins at present is not leaving any stones unturned in his effort to get a two-way road constructed.—Elder photo

STEWART MOORE, Coe Oil Service Distributor, presenting a set of Bulova watches to Mrs. Harvey Wagoner, Nicholas County 4-H Council president. The watches will be awarded to the most outstanding 4-H boy and girl in Nicholas County on the basis of their contribution to 4-H club work this year.
