CHRISTIAN SCIENCE

Man's God-given ability to think and act rightly will be emphasized Sunday at Christian Science services.

Scriptural readings in the Lesson-Sermon entitled "Mind" will include these verses from Proverbs (16: 1, 3): "The preparations of the heart in man, and the answer of the tongue, is from the Lord . . . Commit thy works unto the Lord, and thy thoughts shall be established."

Correlative citations to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include the following: "The human capacities are enlarged and perfected in proportion as humanity gains the true conception of man and god" (258: 21).

The Golden Text is from Romans (12: 2): "Be not conformed to this world: but be ye transformed by the renewing of your mind, that ye may prove that what is good, and acceptable, and perfect, will of God."

COMMENT

Kay T. Fisher

There have been many experiences for both young and old since the snow fell Saturday. From the thrill of a sleigh ride down the Christian Church hill to just sitting by the fire watching the great out-of-doors change into a winter wonderland. As for myself I found out, that in spite of the fact we live such busy lives and often feel no one has time to care or think about you, when you are in trouble, at home or away, there are people eager to help you.

On Saturday morning we found ourselves stranded some four miles from Morehead by icy roads. Pulling in the driveway of the nearest house and asking for shelter, we were welcomed and given generous hospitality by Mr. and Mrs. George M Hall. The fire in the gas grate in the living room was a welcome sight inatural gas, piped from their well, one of several in that particular section we were told. Some of Mr. Hall's neighbors had had wells that had given out and they were now using gas from the Tennessee line. Many of the numerous wells in the area were used by the city of Morehead to store gas, underground of course, for later use in cold weather. The Hall's supply has been going strong for over 20 years.

Not having a telephone, Warren hiked about a half mile, mostly uphill, to a small settlement where a Mrs. Tackett was most generous. Telephone calls to his mother and sister in Ashland were made assuring them that if we were able to reach Morehead safely we would head for home via Mt. Sterling and Sharpsburg (the Owingsville hill wasn't navigable with me in the car.)

A call to the Brown Motor Company in Morehead brought their wrecker which certainly lived up to the motto painted on its side, "no hill to steep, nor ditch to deep." We weren't in the ditch but it was with welcome relief that we climbed into the cab with the driver and began the tow into Morehead.

There after a couple of hours wait (we didn't mind the time we spent most of it eating a good lunch at Eagles Nest restaurant) our car was made ready—shod with a set of chains.

It's 59 miles from Morehead to Carlisle along the route we chose—it took three hours, but home is a wonderful place and we are thankful to be here.

New VA Pension Law explanation to be heard at Feb. 28 meetings

A number of public meetings to explain the new Pension Law (Public Law 86-211) affecting veterans and their widows and orphans will be held on Sunday, February 28, 1960, Olney B. Owen, Manager, Veterans Administration Regional Office, Louisville, Kentucky, announced today.

The meetings are co-sponsored by the American Legion, Disabled American Veterans, Veterans of Foreign Wars and the Kentucky Disabled Ex-Service Men's Board.

The meetings in this area will be held at 2:00 p.m. local time, at these places:

Maysville, Frankfort, Richmond, courthouses and Morehead at the Morehead Grade School.

Representatives of each of the sponsoring veterans organizations, Kentucky Disabled Ex-Service Men's Board and the United States Veterans Administration Regional Office will be present at each meeting. The Veterans Administration representative will explain the provisions of the new law and be available for questions. We want each beneficiary to be well informed regarding the new law, Owen emphasized, because every person now receiving pension must make a formal election if benefits are desired under the new pension plan.

Every veteran and widow now receiving pension and all widows of veterans of World War II and the Korean Conflict now receiving pension as well as all potential beneficiaries, should attend the meeting.

Immediately following the public meeting, the Veterans Administration representative will meet with the service officers of the local posts and chapters of the various veterans' organizations, in order to brief them on the administrative procedures.

These are the first public meetings ever held in Kentucky in which agencies of the Federal Government, the Commonwealth of Kentucky and veterans organizations have joined in a coordinated effort to be of assistance to the thousands of Kentucky veterans, their widows and orphans. This joint effort emphasizes the importance of the meetings, Owen said.

ties, will lead the discussion.

All owners and operators of heavy equipment using conservation work are invited to attend this meeting. It is expected that operators who have knowledge of design and specifications gained at this meeting will save many hours of operating time during the period of heavy operations later this year.

15-acre wheat exemption explained

Several factors affecting wheat producers who have wheat allotments of less than 15 acres for 1960 were called to the attention of farmers today by H. S. Vice, Chairman of the County Agricultural Stabilization and Conservation Committee.

The law that authorizes marketing quotas provides that in commercial wheat-producing States a farm on which no wheat may be produced on any farm without being subject to marketing quota penalties. This provision applies to farms with no wheat allotments as well as to farms with wheat acreage allotments of less than 15 acres.

However, wheat on such farms is subject to marketing quota penalties when more than 15 acres of wheat is produced. When the 15-acre limitation is exceeded, the excess bushelage of wheat is determined by multiplying the normal yield for the farm by the number of acres of wheat above the farm allotment.

Mr. Vice cited the following as an example: A farmer with a wheat allotment of 12 acres for 1960 produces 20 acres of wheat. The difference between the allotment and the wheat acreage producer — 8 acres— would be considered excess acres. The 8 acres excess would be used in determining the amount of wheat subject to the marketing quota penalty. However, if the acreage over 15 is disposed of, the wheat would not be subject to marketing quotas.
