States is going to pay off in one of the most fantastic and hilarious double-cross jobs in recorded history. The basis for this plot is our State Department's policy of appeasement and fatal fear that Russia would propagandize a policy of firm resistance.

To cover all the background of U.S.-Panama relations would be voluminous. But the Treaty under which the Canal was constructed at an investment of about $1 billion is the foundation. Under the treaty Panama granted all rights in the Zone to the United States as if the United States were sovereign to the entire exclusion of the exercise of any sovereign rights by Panama. Thus, the U.S. has exercised jurisdiction and the U.S. flag has flown alone for 50 years. Many peacefully negotiated amendments to the treaty, conceding advantages to Panama, have been concluded in the interim.

Panama is controlled financially and politically by no more than fifty families (the oligarchy). The gist of the political game is strictly that to the winner of government control belongs the spoils—unlimited graft and corruption. One four-year term in a key office is enough to set a man up for life. But these fifty families never get enough—although all are millionaries in their own rights through control of the country's industry. There is a constant struggle between them for political power—the key to more money. There has never been a strong government and the "outs" are continuously striving to overthrow the "ins".

It was an "out"—Aquilino Boyd—who plotted the incident of November 3. For months he had been arousing the people, particularly the students, on the theme that Panama is sovereign over the Canal Zone. He did not generate much public support, however, it being recognized as a political scheme.

His clever plot was to deliberately instigate an incident with the United States—advertised his planned march to the Canal Zone months in advance. He wanted trouble. He succeeded. The choice of the Canal Zone Government was to permit Boyd's lawless mob of thugs and hoodlums to come on run the Zone or to stop the mob with force.

Why did the Canal Zone have to use the U.S. Army to protect lives and property? This is because of the twist which foiled Boyd's plans Boyd calculated that the Panamanian Guardia Nacional would attempt to quell the mob and thus the Panama Government would be put in the position of fighting its own people and protecting the Americans. For this, the present Panamanian Government was to be overthrown. But the Government, weak and shaky, did not fall into the Boyd trap. The Guardia Nacional was not called out and the incident of November 3 developed as it did, with the Americans being forced to defend the Zone and the U.S. Embassy being attacked and the flag desecrated.

The "oligarchy" in Panama immediately saw $$ signs in plenty from Boyd's frustrated ambitions. They also own the newspapers and radio stations. An unbelievable avalanche of anti-U.S. propaganda continued for days on the Panamanian radios and in its press. Outright lies—horrible cartoons—distorted reports—charges of employment discrimination and civil rights violations — all that would put Pravada to shame, were ground out continuously. All of this was to whip up a violent solid front anti-Americanism hatred among the populace. The purpose—to lay a foundation for blackmail by demanding high concessions from the United States. These concessions would be in the form of (1) granting monopoly rights, at their price, to the "oligarchy" for supplies required by the Canal Zone and its employees, (2) outright monetary payments, and (3) conceding to Panama sovereign rights in the Canal Zone. The Panamanian Government climbed on the bandwagon and stole the leadership right away from Boyd and his clique who had instigated it all.

This terrific denunciation of the U.S. calls for another march on the Canal Zone, etc., continued for days. The U.S. lowered itself by sending Under Secretary of State Merchant to discuss matters. He announced that the U. S. would grant no concessions until "normalacy" was restored and obtained a promise that the Panama Government would protect American lives and property. This was not quite the result the "oligarchy" anticipated. Also, business was hurting because no Americans were buying anything in the Panama stores. Immediately the radio and press changed—conciliation, not violence, became the word.

But it was too late to prevent further violence. For days the population of the Zone was bombarded with cries to the to the call of their nation. A mass "seventy-eighty" demonstration had been set for November 28th. The Communists, Cubans and rabble-rousers were not going to miss such a golden opportunity. Again, on November 28, a mob of hoodlums marched. After the U. S. soldiers had been injured by thrown rocks and had taken all the above Nacional that if they couldn't break up the demonstration themselves, he was going to order his troops to open fire immediately. Adequate Guardia Nacional troops arrived at the scene and thrashed the mob back from the border —"to protect them from American bayonets and bullets". The grand "patriotic demonstration" then proceeded to loot and vandalize the business section of Panama City.

Summation—Uncle Sam has let a bunch of money-mad businessmen and business barons kick him in the teeth—he turns his back and they kick him in the pants. Apparently it is State Department creed that no matter what happens—the U. S. shall not get mad.

Result—Blithely ignoring the wishes of the Canal Zone administration and the Department of Defense, Ike and the State Department are going to give substantial concessions to the "oligarchy"—and most likely will let the Panamanian flag fly at that ever important No. 1 U. S. is doomed in its control of the Panama Canal—for the flag stands for sovereignty—and sovereignty means jurisdiction.

The moral—The world and the United States as you can and the State Department will pay you off to be quiet. When you want more—just be nasty again. Panamanians apparently have learned this—presumably their kind all over the world knows it.

Irony—To fan up the poor average Panamanian the "oligarchy" has created a boom in employment and wages in the Canal Zone. Last year the timing was coincidence—the Panamanian Congress on Nov. 3rd in session passed a 40 cents (repeat, 40¢) an hour minimum wage law. The same people who caused all the fuss against the U. S. have denounced this as unconstitutional, say that it will ruin the country, and are fighting it with all their power. The current Government had to do some little something for the people because elections come up in about three months.

That's the story in a nutshell, Harry. We people here in the Canal Zone are confused and discouraged. We don't understand how you win the game by letting everybody kick you around.

500 soil samples expected during March and April

Nicholas County farmers are expected to have soil analyzed during March and April, according to W. T. Straw, County Agent. The samples of soil should be delivered to the County Extension Office located in the Post Office basement and actual testing will be done in Nicholas County Soil Testing Laboratory, which has been in operation since January 1, 1949

In order that the best possible service can be accomplished in analyzing soil for Nicholas County farmers the following suggestions are made:

1. Secure the sample well in advance of the sampling.
2. Be sure the sample is dry and pulverized before it is brought in.
3. Submit between one half and a pint of soil as a sample which should be secured from 10 or more areas of a given field.
4. A separate sample should be submitted for each field that has a different history of crop production and fertilization or as it varies in topography, such as if part of the field is in the bottom, part in a hillside and part in a ridge.
5. Be sure each sample is labeled so that the identification will be meaningful to the producer.
6. Soil samples can be taken when the field is quite moist if care is used in drying the sam-

Sunday is Heart Sunday, the day on which each resident of Carlisle has an opportunity to join the nationwide fight against the heart and blood vessel diseases, the nation's Number One health enemy.

The Heart Sunday collection throughout the residential areas here will be conducted by an army of 25 volunteers of the Carlisle Younger Woman's Club with Mrs. Jack Morrison, Heart Sunday chairman. Each volunteer will visit residents in her immediate neighborhood, presenting individual envelopes for contributions. The envelope may be mailed or left with or returned to the collector, and the amount of the gift need not be revealed.

The collection here will be conducted between the hours of 1:00 p.m. and 3:00 p.m. Each volunteer will carry an official identification form printed on a 1960 Heart Sunday Kit wrapper. She will show the identification on presenting a contribution envelope.

Nearly 1,500,000 Heart Sunday volunteers in more than 10,000 cities and towns throughout the nation will be on the job at about the same time on Sunday, according to Ralph Shearer, Heart Sunday chairman.

The Heart Sunday collection will be the high point in the 1960 Heart Fund drive sponsored by the Nicholas County Association, and affiliate of the American Heart Association, the only national voluntary health agency devoted exclusively to combating the cardiovascular diseases.

Don't apply for bonus before June 1

Frankfort — No application for veterans bonus should be filed before June 1 the state adjutant general's office announces.

Adj. Arthur Y. Lloyd is administrator for payment of the bonus.

His office reports that work has begun on devising application forms, instruction sheets and details of processing. A spokesman for the administrator said:

"Kentucky veterans are preoccupied with four basic questions—who, when, where and how? I can give you the answer to the when question. The law specifically states that 'no application shall be filed with or sent to the administrator before the first day of June, 1960.'

"Information will be released as soon as it is assembled. Newspapers, broadcasting stations, bulletin boards in public places such as court houses, all service organizations such as the American Legion and the V.F.W. will be given the information.

"Don't write to Frankfort for information. We cannot answer your letters. We are in just as big a hurry as you are to get the bonus paid. All of us in this office are veterans too."
