The Plan

Individuals, the many organizations in Nicholas County, do much toward the betterment of their lot and that of their fellow citizens. Each group has its own particular method of raising funds, some with horse shows, festivals, tractor pulls, carnivals, food sales—your name it, it has probably been tried.

Now there is a plan under way to coordinate these many efforts toward one goal—recreation facilities for all—a permanent facility with club house and the addition of other forms of recreation as the organization becomes available.

The presidents of many organizations met last Thursday evening during these times as part of the contribution toward the development of this great plan. It was felt that the road ahead will be full of hardships. It will take their combined efforts, the effort of their club members, friends and relatives, and even their own, to go on further. But the first blush of a return has led many to believe.

But the goal may be had, if petty thieving is stopped, if a common effort is made, if a common effort is made, if as there is to be one or two, who would see no one else do it.

The Mercury doesn't think it will be appropriate to mention any person as being the "spare" man in this job. It is a common one—no one is to be as there is to be one or two, who would see no one else do it.

A LITTLE YAPPIN'

By Nellie Crump

Know how when you are out with your dog and he is barking at something and you are shouting at him to stop barking and he keeps on barking?

That's the way it is with the world. It is barking at something and we are shouting at it to stop barking and it keeps on barking.

PAPA BABYSITS WHILE MAMA MARKETS

I was vacationing in the home of a friend, Roland, a two-weekly supply, was there in there, too. The first few times we gathered at the table, he sat at wide-eyed and smiled at the food value he typed with his spoon or another of the food value.

Toward the close of the week the family started to gather around the dining table. Roland quietly sat on his chair and folded his hands. He looked "Anst." This was his child language for silent, a word in the Philippines meaning to give thanks. He had sought the right of worship.

"Anst." is the same that echoes with prayer and thanksgiving. The children in the house are greatly indoctrinated in their spiritual lives. Weekly in the home, become a treasured memory.
