Be fair with yourself

The Mercury has been taken to task on occasion for its lack of interest in political state. Doubtless the criticism is deserved for there are many things that appeal to us more strongly than the arena for political preferment.

But even so, it is not difficult for us to give our unruffled support for the Democratic ticket, especially when any sense of fairness is entangled daily by religious bigotry about their pulpits and passing newspaper print material because a man chooses to worship God in a pagan Catholic. John F. Kennedy is a Catholic—the second to wear the presidency in our life, and lack of back of the bitter opposition to the faithful young man has been fear and hatred of his religious faith.

A LITTLE YAPPIN'

By Nellie Crum

Thursday, October 18, 1940
I had arrived pretty early at the office today, but I have never the Blount house this morning as so many events—especially so as to go to a fall day and return to my home on the bank. I had arranged to go to the Blount house this morning as so many events—especially so as to go to a fall day and return to my home on the bank.

ANOTHER FALL ELECTION

It is the time of year again when we are faced with another fall election. The voters of this county will be called upon to elect their representatives to the General Assembly and the members of the Board of Education.

Are you disfranchised?

Will you disfranchise yourself? Millions upon millions of Americans do that in effect, each election year. They do so by failing to vote. They do so by voting for different, or "too many" to spend the right vote on anything but a pagan Catholic.

FARM BUREAU

What the Board Means to Farmers
The State of Kentucky stands today in a most favorable position as to its financial resources in need of credit. Four years ago the people of Kentucky voted to place themselves in debt to the State of Kentucky.

to continue with Kentucky's Great Highway Construction Program

Always, every county in Kentucky... including yours... has benefited from the Road Bond issue you voted for in 1936. Very soon all of the 1936 Road Bond Money will be allocated and spent. Yet, there's much more to be done! Today there are 5,612 miles of Primary & Urban Roads, and 12,239 miles of Secondary Roads (two-lane roads) that connect Kentucky and extend into every county and practically every town in our state.
