CONCRETE is the pavement that is not flexible... gives maximum strength with minimum thickness!

Kentucky's highway department chose concrete for this important stretch of Interstate System highway... 2 1/2 to 3 inches greater total depth was needed.

Interstate System highways like Kentucky's Route 68 pictured here call for a pavement that is solid and unyielding.

Concrete's high strength department chose concrete for this important stretch of Interstate System highway... 2 1/2 to 3 inches greater total depth was needed.

Do you bring home everything you've paid for?

It's a good question. When you buy in YOUR OWN town, you get about the same merchandise you'd get anywhere else... Plus the enjoyment of those other things that your money pays for.

When you buy anywhere else, you get merchandise ONLY. And your home community is a little poorer because you carried off part of its resources. And the many things other than goods that your money pays for are left for somebody else to enjoy, while they wait for you to return and give them some more.

These Twelve Business Establishments Are Genuinely Interested in the Future of This Community and your Welfare-TRADE AT HOME WHERE YOUR MONEY BENEFITS YOU!
