When someone mentions Rural Electric Co-ops... what's the first thing you think of?

Let's guess. "Electricity for the farmer is paid for by the government."

Were we right? That's a common conception of rural electricity is not government supported.

1935 Kentucky's rural electric co-ops are completely owned, maintained and managed by their user-members.

By repairing old window screens and screen doors... Install all-aluminum Windows and Storm Doors and enjoy year-round comfort.
