Dear Editor:
The office seekers are beginning to jockey for political advantage by raising the cry "Amend the sales tax to exempt food, clothing and drugs."
If such a cut in revenue comes about, somebody somewhere will be in the line to receive the increase in their salaries. I think it is a little far-fetched to argue that the needy blind or the totally and permanently disabled will receive an increase last year.
I think right now the best thing to do is to get on with the work that has to be done. I think it is better to get on with the work that has to be done. I think it is better to get on with the work that has to be done.

Time for a Spring Clean Up

This irresponsible and costly defacing of our country's natural beauty is something we can help to correct. Public education seems to be the answer with civic clubs and organizations sponsoring clean up campaigns.
I think it is better to get on with the work that has to be done. I think it is better to get on with the work that has to be done.
