LABOR DAY, USA, is almost here again, and from all indications, there'll be a record number of folks on the highways . . . headed for picnics in the park, sun 'n fun at the beach, or the cool, quiet relaxation of the mountains. Wherever you're headed . . . be sure you drive carefully . . . so you'll be sure to arrive!

• • •

TIPS-TO-THE-WISE DEPARTMENT: Call ahead and be sure! Whether you're planning a long Labor Day weekend, or just now taking your vacation, you'll do well to phone ahead and confirm any reservations by Long Distance. It takes only a few minutes to call . . . and Long Distance rates are low (even lower when you call station-to-station, with special values after six p.m. and on Sundays). The few minutes and the few pennies you spend *could* save you a lot of trouble and worry!

• • •

ALONG THE WAY Labor Day, notice the increase in the number of outdoor phones. These handy "outdoor citizens" are on the job 24 hours a day . . . offering you convenience and protection.

• • •

FALL IS JUST AROUND THE CORNER! And you know what *that* means—back-to-school . . . back to getting school clothes in shape . . . back to PTA meetings . . . back to a million-and-one things that there's never quite enough time for! Fall makes you realize more than ever how valuable time is . . . and how valuable your time-savers are. Like the telephone. Ever stop to figure how much time it saves you . . . every day? Instead of having to see them in person, you can just *call* the laundry . . . and the ladies' aid committee . . . and the grocer . . . and on and on. Yes, your phone is what I call a real time, money and you-saver!

Need An Extra FARM HAND?

• DEPENDABLE
• Many Jobs
• and . . . SO ECONOMICAL!

Electric power is today's biggest bargain . . . ; better service . . . more uses.

Smart farmers throughout Kentucky have found that electricity makes the difference when it comes to profitable, labor-saving farming.

Material handling??? An electric motor will move tons for pennies. Water for livestock or cleaning??? Electric pump will do the trick (and let your family live more comfortably, too!).

Whatever the job, check electricity first. Chances are it will be the cheapest and best way to do it!
