"With one oil change, I earn enough to buy a whole week of electric water heating!"
 "I always figured convenience like electric water heating would be expensive," says Z. T. Jones, garage owner in London. "I was surprised to learn it takes only a few minutes work to earn enough to pay for a whole week's water heating."
 Mrs. Jones adds, "We get so much for our money with an electric water heater. All the hot water we can use—clean, efficient operation—and just the right location so heat isn't lost in long pipe-runs."
 "Whenever my friends ask me what's the best water heater to buy, I say electric."
 Only electricity provides flameless water heating

BOUGHT RITE
 We are constantly reminding you, "The Lady Who Pushes The Cart," of the tender, flavorful quality of IGA Tablette Meats. In the case of meat, as well as many foods, it is necessary that you begin with quality. The many IGA beef selectors buying beef in the various markets throughout the country choose only naturally aged, cornfed beef. This assures you and your family of complete enjoyment at meal time.

TRIMMED RITE
 Naturally it takes a certain amount of fat to guarantee you and your family a tender, flavorful meal. But no one has to pay for excess fat and bone on any cut of meat. This is where the men in your IGA Meat Department enter the picture. Their experience and skillful plan give them the advantage of knowing just how much to trim off of a cut of meat to allow for maximum consumer satisfaction. They are experts in preparing the steaks you see in the meat cases every day in your IGA Store. To add to their value you get when you purchase IGA Tablette Meats all cuts are weighed after trimming, thus giving you more edible meat for your buying dollar.

PRICED RITE
 IGA Tablette choice beef is priced to save you money on your food budget every week. Buy rite... buy Tablette!
