S. S. board members meet with junior and senior boys

In recent meetings with Colonel Everette S. Stephenson, State Director of Selective Service for Kentucky and Wendell P. Butler, Supt. of Public Instruction, the need for a more effective effort between the State Department of Education and the Selective Service System was discussed.

Selective Service officials are aware that the young men in high school or college are contributing to national preparedness just as certainly as are those in training in the armed forces. It is the desire of these officials that students remain in school and complete their education and training.

In an effort to acquaint the high school students with their Selective Service obligations, one of the board members—Elva R. Kendall, gave a short talk at each of the high schools. The Selective Service law was explained, and emphasis was placed on the importance of students completing their education.

The board members and clerk, Miss Hallye Griffin, met with junior and Senior boys at the Nicholas County high school on Tuesday, May 16 at 11 a.m. and on Monday, May 15 at 1 p.m. with the boys at Carlisle high school.

Other members of the local board are Jerry Bell, Arvin Arnold Bowen, Roy Blount, and Lee B. Osborne. Eddie Barbee is the Appeal Agent, and Dr. Jack Morford is the examining physician for the local board.

Reminders for tobacco growers

Farmers in Nicholas County who are considering leaving strips of idle or fallow land alternately in a skip row arrangement with tobacco rows were reminded by H. S. Vice, chairman of the county ASC committee, that the strips of idle or fallow land must be as wide as, or wider, than four normal rows of tobacco (5 rows from plant to plant) to be eligible to be deducted from the tobacco acreage.

A "normal row' is described by Mr. Vice, as being at least 36 inches wide or the actual distance between the rows of tobacco on the farm whichever is wider. Mr. Vice said that anyone planning to leave idle or fallow strips of ground in the tobacco field should contact the county ASC office before setting to bacco.

Spray control to start with warm weather

Within the next few days spraying for control of mosquitoes will begin. Any person who desires to help apply the sprays, please notify Mayor Bill Power or Jack Morrison. All citizens are asked to cooperate by cleaning up their premises —especially places where water might stand, keep shrubbery trimmed and weeds cut. Assuming that everyone will do his or her part, spraying can be a huge success. Why not enjoy being able to eat outdoors and relax outside without being mosquito bait. The spraying will be accomplished as soon as the weather is warm enough for the chemicals to be effective.

Man killed when car slips off jack

A 21-year-old mechanic was killed at 2 p.m. Sunday when crushed by a car from which a bumper jack had slipped.

Coroner Ralph Shearer said David Carlisle McDonald died of a crushed skull while working on a car at Buntin's Garage as where he was employed. Shearer ruled the death was accidental.

The corner said there were no witnesses to the accident. The body was found by James McIlvaine and James Flora.

McDonald was a native of Bourbon county.

Survivors are his parents, Benjamin C. and Leona Whitaker, McDonald, Nicholas County; three brothers, Buford McDonald, Carlisle, and Rodney and Dennis McDonald, Nicholas County; and four sisters, Mrs. Dora Norville, Lexington; Mrs. Robert Abney, Carlisle, and Mrs. Earl Green & Miller, will be general office work.
