

400 pound baby beef slaughtered on Nicholas County farm recently

George Honican, well known farmer of Nicholas county, was brought to the local hospital Saturday afternoon from the Ashland hospital. He is an automobile wreck on last Thursday night and suffered a badly lacerated arm, which was severed by Dr. Clarence Rappaport, in the field Hill section of this county, on Monday afternoon, Oct. 26. He was taken to the Ashland hospital, where he was operated on by Dr. Rappaport and Dr. J. E. Soper. He is now recovering from his injuries and is expected to be home in a few days.

Letters to the Editor

Dear Editor:
 In all the charges and counter charges in this county campaign, one fact stands out prominently. That is, the present administration has been unable to protect the county from the outside forces which are trying to bring about the annexation of this county to the city of Louisville. It has also elected a policy of going away city water to the city of Louisville. This is against the terms of the contract which was signed by the mayor. Who is to say which laws we should violate, and which we will abide by? How long will it be before others are broken? Serving the city as a mayor or councilman should be a civic duty and not for special endowment or gain. This is written because I would like to see someone who will find it possible to support people according to their merits.

Dear Editor:
 It is painful to read that the records kept by the City Office so carefully for as 60 years have been destroyed. All this was done by a man who had been in the office for 40 years. It is a pity that the records were not kept in a fireproof safe. It is a pity that the records were not kept in a fireproof safe. It is a pity that the records were not kept in a fireproof safe.

 Write-Downs
 The ten most frequently mentioned items were steam iron, rubber-tyred, electric sewing machine, automatic shift, defroster, thermostat control, freeze food and self-defrosting refrigerator.

Ground Hay In Grain Mills
 The Dairy Cow Dealers' Association has announced that it will save time and money by putting ground hay in the grain mixtures for their dairy cows. This is especially true in the winter months when the digestibility of the hay and corn is at its lowest. The association has announced that it will save time and money by putting ground hay in the grain mixtures for their dairy cows.
