Telephone Talk

by CHARLES A. HARRIS
Your Telephone Manager

WE CAN'T THINK OF A NEW CHRISTMAS GREETING, but fortunately, the old words still say it best. Merry Christmas to you and those you love! We hope the season and the day will be filled with many good things for you. The companionship of family and friends... the satisfaction of giving and the pleasure of receiving... the love and joy that bring alive the real meaning of Christmas Day.

ON THE SUBJECT of Christmas greetings, many people will be calling relatives and friends on Christmas Day, and the lines will be much busier than usual. If there is a delay in your call, we are sorry and hope that you will try the call again later.

SPELLING LESSON - 20th CENTURY STYLE: The "maser" (a word you won't find in the dictionary) is an important part of the ground station which receives and amplifies signals from the Telstar satellite. The word "maser" is made up of the first letters of several other words: M (microwave), A (amplification), S (stimulated), E (emission), R (radiation). A tiny ruby crystal at the heart of the maser which amplifies signals transmitted from Telstar to earth. The maser is another Bell System contribution to the exciting world of satellite communications, and a brand new word in the vocabulary of 20th century man.

AS A NEW SERVICE TO TELEPHONE USERS WITH IMPAIRED VISION, a plastic covered dial number plate with adhesive backing has been developed. The dial has extra large numerals and letters, and can be installed beneath the dial of a telephone. Both the special number plate and cover are available now and can be installed on your phone at nominal cost. If you are interested, just call our business office.
