for courage Convictions call

It is not hard to find all too many of our associates who have the courage to face their convictions and ask that their name be removed from the "True Blue" list.

He, as others, had run upon a platform at the recent city election, knowing the mind that city commission seek the office in order to avoid their city and follow citizens a wrong but to obtain a position for personal gain.

On one hand, one hears the remark the water company to work a little bit. The downtown official never even vent a beverage off on his lips, the law prevents a reward from raising his salary, there-

fore, he could not happily reduce his salary except 30 days prior to the city election—when it affects the pocketbook, most can rationalize most anything, it seems.

And while on this point of rationalization, how do you interpret the meaning of the word "contract," as referred to on KRS 41.220 and KRS 39.050? Let's contact the attorney general's office by telephone this time, so the whole country side won't know and there won't be any further publicity.

It is interesting to note that only one news paper on this immediate area published the information from the attorney general's office regarding a letter from Carlisle's mayor.

If KRS 41.220 and KRS 39.050 be had laws, they should be amended, not changed out. As has been said before, "it all depends on who's law is being used."

30 & 40 YEARS AGO

Thursday, February 5, 1932
 The Carlisle Fire Co. moved to the new building on the corner of the town square. The building had been built by J. H. Hines, head of the town square. The building was built on the site of the old town square. The building was built on the site of the old town square.
