A OPEN LETTER
To The Nicholas County
And Carlisle Community
From The People of Georgetown and Scott County

The most recent newcomer to the community of Scott County is the Univer-
sity of West Virginia. Universal occupies the plant built by the people of Georgetown
through a revenue bond program. This Company came here at the urging and insistence
of many of our citizens to provide jobs (for the people in this area) and in so doing has
relieved chronic unemployment and improved the economic health of the whole area.

As fair minded and free thinking people of this area, we have a vital interest in the
industrial peace and good order of our community. Therefore, we feel free to express our
concerned the possibility of union activity within our industries.

We all know that unions can and do cause problems which are best solved by the people
themselves without the interference of outsiders who are simply seeking dues and assent-
ments from the employees.

Naturally, problems may have arisen in the start-up of a plant of this size of Universal. But,
these problems can be solved daily, and will continue to be solved, to the mutual benefit
of all concerned.

We feel it only fair that the employees will give the Company the opportunity to estab-
lish itself here. We know this new enterprise will help provide a better economic climate,
not only for its employees, but for the community as a whole.

- 1. What is the history of unions and this one in particular?
2. What are these unions really interested in?
3. Do you have a better job and more opportunity today than before Universal came
to Georgetown?

A LITTLE YAPPIN'

By Nellie Crump
On The Oil Of Air
The first was a small one, but
about meeting one of our neigh-
bors, I had a chance to see
the full of Carlisle school. It
was a very interesting sight
and we were happy that we
could see what was going on
in the school.
