There will be a covered dish supper each evening at 6 o'clock in the Education Building. Discussions will be led by the Laymen and Women of Carlisle Methodist Church. There will be a class for youth and adults, also a class for children.

The Commission on Education will please meet on Thursday evening this week at 7:30 in the Annex.

CHRISTIAN SCIENCE

Freedom from sin, sickness, and loneliness is available to all through the power of Spirit, God. This is the encouraging message to be emphasized at Christian Science services on Sunday.

Bible readings in the Lesson-Sermon, entitled Christian Science, will include Matt. 9:2 "And Jesus went about all the cities and villages, teaching in their synagogues, and preaching the gospel of the kingdom, and healing every sickness and every disease among the people."

A correlative passage to be read from Science and Health with Key to the Scriptures by Mary Baker Eddy states: "Every day makes its demands upon us for higher growth rather than professions of Christian power. These proofs consist solely in the destruction of sin, sickness, and death by the power of Spirit, as Jesus destroyed them. This is an index of progress and progress is the law of God whose law demands of us only what we can certainly fulfill" (p. 228).

CHRISTIAN CHURCH
"Uplifting The Christ Since 1820"
Lanis E. Kineman, Minister

6:00 Presbyterian Youth Fellowship—Group Two in Charge

Wednesday at 6:30 Dinner Meeting of the Men of the Church.

You will find a welcome at these services.

MANY UK STUDENTS QUALIFY FOR LOANS

By next June the University of Kentucky Student Loan Office will have approved well above half a million dollars in loans to students over a four-year period. The funds have been made available primarily through the National Defense Student Loan program set up in 1958.

Under the program, the University puts up one dollar for every nine dollars made available by the federal government through the U. S. Office of Education. In addition, UK pays all administrative costs of the program, which is directed by Dr. Elbert W. Ockerman.

Although a student may borrow a maximum of $500 per semester, Dr. Ockerman says the average loan per semester at UK is $250. Approximately 450 students can be accommodated with funds now available.

Last year's borrowers included 108 seniors, 115 juniors, 92 sophomores and 100 freshmen.

Each student may borrow a maximum $5,000 during his or her educational career. No interest accrues nor is repayment required until one year after the borrower has ceased to be a full-time student. The borrower has 10 years in which to repay the loan, plus a three per cent interest.

A beneficiary of the program who becomes a full-time teacher in a public elementary or secondary school may have 10 per cent of the total amount borrowed, plus accrued interest, canceled for each year of teaching up to five years.

Dr. Ockerman said he already has received nearly 100 letters of inquiry about loans to become effective next fall.

Taylor Creek Homemakers

(Continued on page 5)

The Taylors Creek Homemakers met at the home of Mrs. Joe Sapp, Thursday, Dec. 21, at 6:30 p.m. for a covered dish supper, for their Christmas party. Twelve members and their families: Mrs. Margie Wilson, five visitors, Mrs. W. W. Smith and son, Mr. and Mrs. Everett Swim and Miss Dianna Ratliff were present.

Games were played and

HIGH BALL TIME . . . Shapely Carol Marx keeps in step with the football parade these days as she leaps high to grab the pigskin during a Las Vegas Nev., game.

are you a BARGAIN (S)HOPPER?

Omit the "S" and what have you? A BARGAIN HOPPER. What is a BARGAIN HOPPER?

A BARGAIN HOPPER is liable to hop up anywhere, jumping about from place to place, town to town. He can make some momentous leaps, consuming time, money and energy, often fruitlessly.

Add the "S" and what have you? A BARGAIN SHOPPER. Everybody knows what a BARGAIN SHOPPER is after. He has need for a thing and he goes after it. He knows exactly what he wants. He knows where to look for it. He aims to find it, at a reasonable price, with a minimum of wasted time, money and effort.

Be a BARGAIN SHOPPER. Be wise. Look first to the local business community, where folks are anxious to serve you quickly, courteously, and with guaranteed satisfaction.

Trade at Home for Your own sake! and community progress

TEAMWORK MEANS SMOOTH RIDING

A bicycle built for two is too much for a solo operator. Two on a tandem is much better—if there's enjoyment. It's teamwork that does it.

And, although some folks never give it a thought, teamwork is important in community life. Some folks manufacture things; other folks distribute these things; and still others sell at retail. There are yet others who provide a "service" which most of us need in our business or in our home.

Yes, we need a variety of products and services to keep our shops and our homes in order—and it's comforting to know that everybody benefits when everybody trades in the local mar-

Trade at Home for Your own sake! and community progress

GOOD NEWS TRAVELS FAST!

Good news has a way of getting around—fast.

Let a real good bargain pop up somewhere. It's advertised in the paper. Many folks see it. They tell other folks about it. First thing you know, the word is all over town.

But, you don't have to wait to be told, you know. You can look for yourself, in each edition of this newspaper.

We don't have space here to talk about individual bargains but we do want to talk up a point that everybody knows: local merchants offer the best values all year around—with plenty of bargains during the important holiday season.

Trade at Home for Your own sake! and community progress

State College Building in Progress Totals $48 Million

Booming enrollment figures, higher this year than ever before at the University of Kentucky and four of the five State-supported campus, have pointed up the need of the $48 million construction program currently under way at the State's institutions of higher learning.

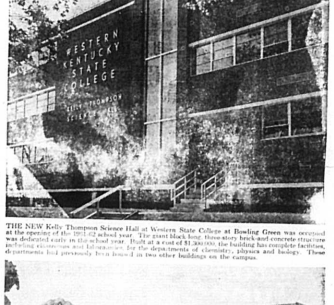
Besides increased enrollments—more than 15 per cent higher than last fall—expanded curricula and outdated facilities have also contributed to the need for the step up in building.

To supply that need, construction totaling more than $48 million is currently under way at the six State institutions. Another $16 million in projects is in the design stage or under contract. And an additional $4 million in construction has been completed recently.

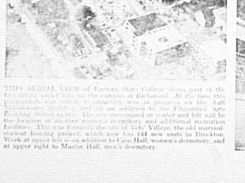
Financing of the construction program for the University and State colleges is being handled mainly by revenue bonds, with some assistance from the capital construction fund.

The University of Kentucky has

WORK RECENTLY was started on the Bell Health and Physical Education Building at Eastern Kentucky College in Richmond. The new structure, shown in the drawing above, will house the entire gymnasium and swimming pool facilities, and the physical education facilities. The new building is expected to be completed in late winter or early summer of 1963.



THE NEW Kelly Thompson Science Hall at Western Kentucky State College at Bowling Green was opened at the opening of the 1961-62 school year. The giant black four three-story brick-and-concrete structure was dedicated early in the school year. Built at a cost of $1,300,000, the building has complete facilities, the drawing above, and laboratories for the departments of chemistry, physics and biology. These departments had previously been housed in two other buildings on the campus.



THIS AERIAL VIEW of Eastern State College shows part of the 110-acre campus at Richmond. At the time this picture was made, the new Begley Building, in the foreground, was under construction. In addition to the Education Arts Building, the new Begley Building will house the Department of Industrial Education and Technology. Work is also underway on the Fitzpatrick Building, the four-story structure at the upper left, and will soon be started on the Physical Education Building. This new facility will include an indoor swimming pool, basketball and volleyball courts, and classrooms. Work is also underway on the Case Hall addition, which will be completed in late spring. Case Hall, women's dormitory, is at upper right in addition to Case Hall, women's dormitory, and at upper right is Martin Hall, men's dormitory.

MURRAY STATE COLLEGE'S two largest departments—business and education—will soon have a new home. This architect's drawing shows the $1,169,811 classroom building expected to be completed in the summer of 1962. It will consist of two wings—one of four floors and one of three floors—to be connected by an enclosed passageway. Completion of the building will give other departments a chance to expand in the facility which now houses the business and education departments.

Little Change Predicted in 1962 Family Living Costs

Family living costs in 1962 probably will be quite similar to 1961 costs. Average annual prices paid by consumers for goods and services in 1962 are expected to increase moderately over 1961 levels, plus tabled shows, a slight increase in the cost of living. Clothing prices showed a plus increase in 1961 and are expected to increase moderately in 1962. The increase in that main was also half that of 1961. The increase in the main was also half that of 1961. The increase in the main was also half that of 1961. The increase in the main was also half that of 1961.

Prices of home furnishings and equipment have been somewhat stable in recent years and are expected to remain relatively stable in 1962. Prices of home furnishings and equipment have been somewhat stable in recent years and are expected to remain relatively stable in 1962. Prices of home furnishings and equipment have been somewhat stable in recent years and are expected to remain relatively stable in 1962.

Costs of home maintenance and repair and household operation have risen some in the past and are expected to rise some more in 1962. Costs have increased about the costs. Mr. and Mrs. Morrison's costs have increased about the costs.

Mr. and Mrs. Morrison's
