Thursday, January 18 at 3:00 and 7:30 Visitation.

CHRISTIAN SCIENCE

How children can be early taught to understand and love God will be brought out at Christian Science services Sunday.

The welcome given children by Christ Jesus, described in the Gospel of Luke 18:, is among the Scriptural selections to be read in the Lesson-Sermon entitled "God": "And they brought unto him also infants, that he would touch them: but when his disciples saw it, they rebuked them. But Jesus called them unto him, and said, Suffer little children to come unto me, and forbid them not: for such is the kingdom of God."

One of the correlative citations to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy states: "Jesus loved little children because of their freedom from wrong and their receptiveness of right. While age is halting between two opinions or battling with false beliefs, youth makes easy and rapid strides towards Truth." (p.236)

Deaths

(Continued from page 1)

Honorary pallbearers, members of the Nicholas County crew of the State Highway Department, will be Charles Kash Stone, T. H. Vice, Arnold Hoover, Marshall Walton, Sherman Crump and Charles Worthington.

Mrs. Dorsey Alice Hatfield

Mrs. Dorsey Alice Hatfield, 62, widow of James Hatfield, died at 6:30 o'clock Saturday at the Nicholas County Hospital after a month's illness. She was born in Fraser, County and had spent the last 60 years in the Sprout section of Nicholas County. She was a member of the Mt. Zion Christian Church.

She is survived by two sons, Lexi and Austin Ishmael, Nicholas County; a daughter, Mrs. Thomas Russell, Nicholas County, and 13 grandchildren.

Funeral services were conducted at the Mt. Zion Christian Church at 2 p.m. Tuesday by Rev. Lanis E. Kinsman and burial was in the Mt. Zion Cemetery.

William R. Blount

William R. Blount, 62, secretary-treasurer of the Feather-Lite Parker Garage Co., died unexpectedly at 8:30 p.m. Friday at his home, 1214 Cooper Drive, Lexington.

Born in Nicholas County, he was a son of the late William and Annie McLean Blount. He was educated in the Nicholas County schools and attended Eastern Bluegrass College. He was a member of Park Methodist Church, the Scottish Rite, the Shrine and the Masonic order in Nicholas County. He had lived in Lexington for 45 years.

Survivors include his wife, Mrs. Helen Pierce Blount; a daughter, Mrs. Griffin S. Ander-son, Cincinnati, Ohio; a son, W. R. Blount Jr., Paris, and four grandchildren; Helen Carol and Philip Allen Blount and Terri and Michael Ray Anderson.

Funeral services were conducted at 1:30 p.m. Monday at the W. B. Milward Mortuary—broadway by the Rev. C. Nevil White. Burial in the Lexington Cemetery.

Bearers, Eugene Rose, John Phergo Grafile, Jack M. Taber, Father C. Clay, Cecil M. Sanders and Everett Wilson.

Honorary bearers, W. R. Estill, Dan S. Estill, Dr. Lawrence E. Hurt, Briney Paul, Dr. Robert B. Simons and Dr. F. S. Dailey.

Franklin Gene Crawford

Franklin Gene (Buddy) Crawford, 29, of the Blue Lick section died at 5:30 a.m. Thursday at the Nicholas County Hospital after a three-week illness.

Survivors are his mother, Mrs. Nellie Mann Crawford, Nicholas County, and a sister, Mrs. Gordon Goddard, Sardis.

Funeral services were conducted at 2 p.m. Saturday at the Matthers-Shearer Chapel by the Rev. Lanis Kinsman. Burial in the Carlisle Cemetery. Pallbearers, William White, Tyne Mackey, William Wagner, Elmer Crawford, Herman Overly and Glenn Craig.

Mrs. Etta G. Edwards

Mrs. Etta G. Edwards, 78, widow of Joseph H. Edwards, died at 9:15 o'clock Thursday at the Collins Nursing Home after an illness of several weeks. She was a native of Harrison County and a member of the Earlington Christian Church and the Arlington Rebekah Lodge No. 113, Cynthiana.

She is survived by nephew, Theodore Insko, Carlisle.

Funeral services were conducted at 2 p.m. Monday at the Smith-Rees Chapel by the Rev. W. S. Mitchell. Burial in the Grove Cemetery. Rebekah services were conducted at 8 p.m. Friday.

Mrs. Pearl Rankin

Mrs. Pearl Rankin, 73, widow of James T. Rankin, died at 4:45 p.m. Sunday at the Bourbon County Hospital.

A native of Nicholas County, she was a daughter of Eli and Mary Hill Seely. She was a member of the First Baptist Church of Paris.

Survivors are two daughters, Mrs. Claréne Blake and Mrs. James Eades, Paris; a son, Robert Rankin, Wadsworth, Ohio; a granddaughter, Mrs. Clyde Buntz, Paris; a grandson, Bobby Rankin, Wadsworth; two sisters, Mrs. C. H. Ritchie, Newport, and Mrs. Sterling Sours, Trenton, Ohio, and seven brothers, W. E. Seely, Berry, Jesse Seely, Florida.

Funeral services were conducted at 2:30 p.m. Wednesday at the Davis Funeral Chapel by the Rev. Fred T. Moffatt Jr. Burial in the Paris Cemetery.

Pallbearers, Larkin Stanley and J. C. Pryor, Harrison and

Mason Morrison,
Ass't County Agent
Margie H. Wilson, Home Agent

Now, Let's Talk Some About Magnesium Deficiency or "Sand Drown" in Tobacco.

A good deal has been written and said about the need for using magnesium in fertilizing tobacco in Kentucky. Many questions are confused about the situation. We have some information that may clear up some of the questions arising about the use of magnesium in tobacco production.

Magnesium deficiency is commonly known as "sand drown" since it more often occurs in sandy soils and during seasons of excessive rainfall. "Sand drown" is a condition due to magnesium deficiency and should never get confused with tobacco that "drowns either by too much water or drowning caused by poor drainage of the soil. "Sand drown" and drowning by water are two separate and distinct conditions, and applying magnesium to fields of tobacco will not prevent water injury to the tobacco crop.

The magnesium deficiency symptoms rarely appear in the field until the plants have grown to considerable size (12 to 18 inches). The leaves usually attain almost normal size before the deficiency shows up.

In the plant, magnesium is essential in the formation of chlorophyll which gives the green color to leaves. The green pigment is affected when the magnesium supply is short. The leaves on the plant may be involved in the lack of color though the bud of the plant tends to remain a normal green.

The University of Kentucky Agricultural Experiment Station has conducted studies on soil experimental plots to determine the need of magnesium in tobacco production. The results of these studies have not shown the need for the addition of magnesium to fertilizers for growing tobacco. These results were obtained from a limited number of soils following certain crop rotations. It cannot be definitely stated that in other cropping systems on other soil types, there might not be a response to magnesium. So far as is known there has been only one case of magnesium deficiency or "sand drown" authenticated in Kentucky, although numerous reports of the need for the addition of magnesium in fertilizers are obtained from a limited number of soils following certain crop rotations. It cannot be definitely stated that in other cropping systems on other soil types, there might not be a response to magnesium.
