You will find a welcome at church.

CHRISTIAN SCIENCE

Conflicting demands of every day living can be reached through spiritual understanding of God as divine Life.

This is a theme of the Lesson-Sermon entitled "Life" which is to be read at Christian Science services Sunday.

Selections from the Bible will include this verse from Isaiah 46: 1 delight to do thy will, O my God, yea thy law is within my heart."

From Science and Health with Key to the Scriptures by Mary Baker Eddy this citation will be read: "Life, Truth, Life, and Love are the only legitimate and eternal demands on man, and they are spiritual laugnets, enforcing obedience through eternal order."

The Golden Text is from John 15: "This is life eternal, that they might know thee the only true God, and Jesus Christ, whom thou hast sent."

CHRISTIAN CHURCH, CARLISLE, KY.
"Uplifting The Christ Since 1820"
Lanis E. Kineman, Minister

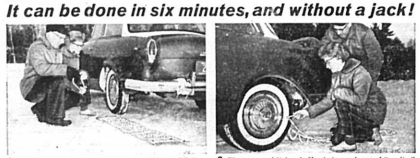
HERE IS EASIEST WAY TO PUT ON TIRE CHAINS

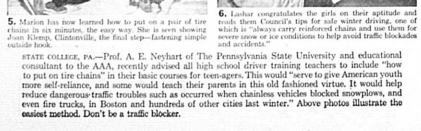
It can be done in six minutes, and without a jack!



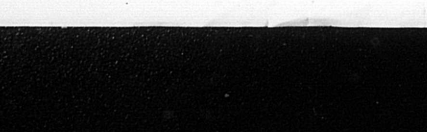
1. W. B. (Walt) Lashar, Jr., chairman of National Safety Council tire committee, shows Marion Oland, Clintonville, Wis., the first step. Spread chains on the ground to remove tangles. Reinforced chains are best, and the projecting teeth or cleats should be up.

2. Then put end links of idle chains on loops of "applier" and push onto tire as shown. No jack is needed.

3. It is wise to gather the cross chains up close in back of tire on same cars, so chains won't catch on back of fender when car is moved forward to encircle the rear wheels.



4. Now drive ahead one wheel revolution, until side chain fastener is near fender. Remove the spring steel wire "applier" and fasten the inside hook. Lashar shows Marion that the usually difficult inside hook can be fastened by "feel" without getting under car after you practice it once and learn how.



5. Marion has now learned how to put on a pair of tire chains in six minutes, the easy way. She is seen showing Joan Kleeup, Clintonville, the final step—fastening simple outside hook.

6. Lashar congratulates the girls on their aptitude and reads them Council's tips for safe winter driving, one of which is "always carry reinforced chains and use them for severe snow or ice conditions to help avoid traffic blockades and accidents."

STATE COLLEGE, PA.—Prof. A. E. Neyhart of The Pennsylvania State University and educational consultant to the AAA, recently advised all high school driver training teachers to include "how to put on tire chains" in their basic courses for teen-agers. This would "serve to give American youth more self-reliance, and some would teach their parents in this old fashioned virtue. It would help reduce dangerous traffic troubles such as occurred when chainless vehicles blocked snowplows, and even fire trucks, in Boston and hundreds of other cities last winter." Above photos illustrate the easiest method. Don't be a traffic blocker.

Items

Mrs. Edna Keller, Editor Phone 194-W

Mr. and Mrs. Hord Crouch and Mrs. Kenneth Soper were day in Vanceburg, Tuesday to at tend the funeral of Garr Jordon

The bride is a graduate of Paris high school and is employed by Southern Bell Telephone Company.

Mr. Hamilton is a graduate of Nicholas County high school and is employed by the American Tobacco Company.

The couple is residing in Yorkshire Estates, Paris.

How you can receive a check signed by Uncle Sam twice a year

When you buy an H Bond you can be sure of receiving your first interest check in six months—and every six months till maturity. Every year the U.S. Treasury mails out more than 3½ million interest checks worth $140 million to the folks holding Series H Bonds.

Why buy Series H Bonds? H Bonds are specially good if you're living on a retirement income or want to invest for current income.

If you own E Bonds you can trade them for H Bonds at anytime. (A nice feature if trading is you don't have to pay tax on the accumulated E Bond interest until your new H Bonds mature or are cashed.)

Guaranteed growth. Your Bond money now earns 3¾% interest held to maturity. Your money can't be lost because Uncle Sam replaces destroyed Bonds. And you can get your money with interest anytime you want it.

Every Savings Bond you buy is a share in a stronger America. Why not ask your banker for all the details?

You save more than money with

U.S. SAVINGS BONDS

For 20 years America's newspapers have published Savings Bonds ads at no cost to the Government. The Treasury Dept. is grateful to The Advertising Council and the newspaper for their patriotic support.

THE CARLISLE MERCURY

Nicholas County Memories . . .

by L. P. Scott

"The efforts of the good people of Nicholas County to raise funds to insure the establishment of a 4-H Camp near Carlisle, prompted me to recite a personal experience in camp life.

The time was 60 years ago and the place Licking River near the mouth of Fleming Creek on the Wm. Flora farm. Even tonight, I expect from the C. S. Parks estate.

School was out and I had an unenthusiastic urge to go camping. My mother who was ever ready to help make life more interesting.

The upshot of it was that she, Jim Bond Parks and I would go camping. Having little of any necessary camping equipment we had to do some improvising. First we had to have transportation. We had Charley, the family horse, but nothing to hitch him to except the buggy. For trips to Parks Hill we often rented a light spring wagon from M. J. Archuleon for 25¢ per day, so for our camping trip we again rented the wagon. The next thing was a tent and we were glad to find that Uncle Billy Dunsmore had one of the large size at his place, which he would lend to us. The tent, with some bedding, cook utensils and chairs, plus necessary food supplies, lanterns, fishing tackle, personal clothing made up the load. All of us were excited out.

With Mr. Flora's permission we camped near the spring and about opposite the L & N water tank. We selected a level place for erecting the tent, a real necessity. We used short saplings to be done.

The tent up, the men of the party naturally had to think of providing food for the camp and my time on hand, and set long lines after which steps were put on the road to the creek bank to make journeys for the spring and fish poles easier. Finally the chores were done, supper was over and we were all ready for bed. Tired but happy.

Sometime later in the night we were awakened by thunder and lightning followed by a downpour of rain and had to seek shelter in Uncle Bills tent. Not only that but not having laid trench in the tent the water soaked us and our bedding. Undaunted, ran on under the tent setting everything below us as above as the rain continued.

Finally came the dawn and with it a definite move on our part to improve the situation. Jim Bond Parks and I went on with all the wet stuff and to the farm house, decided to use the old cottage No. 104 on Parks Hill to dry out our bedding and my story is that to mount every help possible in the development of the youth of our county everyone should contribute to the extent of his ability to this worths undertaking of the Nicholas County Development Corporation, a.k.a. the 4-H Council.
