Seventy-five million to be available for VA home loans

The Veterans Administration announced today that $75 million will be distributed to field offices on July 2, 1962, for the purpose of making direct home loans. Approximately $25 million will be obtained from principal repayments received from borrowers who have direct loans and the balance will come from Treasury borrowings under current authorizations.

VA officials estimate that it will be possible in May to notify field officers of their respective loan allotments. At that time VA Regional Offices will be in a position to furnish direct loan applicants to veterans on those waiting lists in advance of the distribution on July 2.

The VA decision to make $75 million available to field offices in July was made after a continuing review of direct loan activity since October 1961. The VA said that additional allocations would be made during Fiscal Year 1963, but that the amount and timing would be determined at a later date.

Five killed in traffic accidents in 1951

The record to date for traffic deaths at 222 persons killed in traffic accidents throughout the state. The same results would be achieved if a bomb killing all the inhabitants were dropped on a town about the size of Carlisle, Bedford, New Castle, Perryville, Stanford, Bradford, Cordon, Edmonton, Whitesville or Elkton.

Although this appalling slaughter is heartbreaking to 11 years, 5676 died in 1950, we can't settle a clear conscience call it a good year when 222 people are killed on our highways. The efforts of every one of us are needed to make Kentucky highways as safe as possible.

The Department of Public Safety has this advice on becoming a better driver: first, make sure your car is mechanically perfect and in top condition, then learn to drive as if you were carrying a dozen hen eggs on the back seat. In other words, don't start, swerve or stop suddenly. Be a defensive driver. Consider every other driver as being erratic behind the wheel.

We join Public Safety Commissioner Glenn Lovern in urging all Kentuckians to have a feeling of moral obligation to keep his fellow man alive by being a responsible and safety-conscious driver at all times.
