I certainly have enjoyed the new look in the Mercury. It certainly sets a standard for more improvements in our country. It is perfectly obvious that the things we take for granted, as being good, can still be improved.

My copy of the Mercury is sent to me by my folks, and I look forward to it almost every Sunday. There

IT ALWAYS SEEMS TO WORK!

ure for the first time in my whole life, but honestly, I thought I would starve to death those first few weeks, but I didn't.

Do give me a list of food I could eat and another list that I could use—all the good things were on it. I began feeling stronger.

I needed all the money I could rake and scrape for that trip had to pay full fare for Bessie. Well, I did not think I ate anything hardly for the entire five days. When I got home I had gained seven pounds!

Money was gone—like lightning—so I decided the whole thing to be a state of mind—sort of hocus-focus—and I began a new treatment—WILL POWER.

There was one thing Doc did not tell me—when the pounds were shed, what to do with the flabby skin draped over one's bones! I would rather be a fat old woman than to be wrinkled like a prune anyway.

If you prefer substitutes and have the money (I didn't) of course it is your business, and your diet. Otherwise, take a heaping dose of willpower three times a day Regular. Guaranteed to work or your money refunded.
