Tips 'N' Tidbits
BY ANN KLINKENBER HOW TO PICK A PRINT
Woven designs are oldest, but prints give us the greatest variety in patterns and styles. There's nothing so striking as a delightful print dress or sport shirt.
Here are some notes to bear in mind:
Is the particular print fugitive, water soluble, solvent soluble, or what? Because, unfortunately, that's the way some are made, a solvent soluble print can be faded and not laundered. Once in a while, you'll find the two combined, and usually it's on a pretty fancy-looking item (the only way they can make it like that!).
The answer is simple. Ask a pertinent question or two when you're buying. Then you'll know, and can then buy the item as it should be—either laundered or cleaned, whichever it is, anything else, maybe, it will look better if we do it for you. Why not try our superior and more scientific cleaning now?
Here at WARDROBE CLEANERS we have the storage for your winter-woolens, stored for the purpose of professional cleaning a lot. Remember you pay absolutely nothing extra for WARDROBE box storage, just our regular cleaning prices. Your clothes are safe and fully insured.
