## Notice To All Property Owners

The 1960 Kentucky Legislature passed a new law and section 132.690 reads as follows "All taxable real property or interest therein subject to assessment by the County Tax Commissioner shall be revalued in 1963 and each four years hereafter in accordance with the Standards prescribed by the Dept. of Revenue."

Recent real estate sales within the County indicate that some property is not valued high enough for tax purposes. I ask all property owners to visit my office during the months of January and February and discuss their property values with me. It is also time to list all property for 1963 tax purposes. All real estate and improvements, automobiles, trucks, trailers, house trailers, farm tractors, other farm equipment, livestock, stocks and bonds, notes and mortgages, merchants inventories, accounts receivable and life insurance proceeds subject to withdrawal are to be listed at this time.

## Watkins Heads Heart Drive

Leadership for the 1963 Heart Fund Drive now in progress in Nicholas County has been announced by the State campaign chairman, William T. Hockensmith, Frankfort insurance executive. The drive continues through February.

Overall campaign activities are under the direction of Charles K. Watkins, Route 4, Carlisle, who is serving as Nicholas county chairman.

Carlisle Heart Sunday efforts are being headed by Mrs. Wayne Rawlings and Mrs. Harold Gaunce, both of Carlisle, who are serving as co-chairmen. This phase of the campaign has the sponsorship of the Carlisle Community Woman's Club.

County business gifts solicitation is under the chairmanship of Custer Blair, of Carlisle, who headed these activities in the 1962 Heart Fund Drive.

Describing the Kentucky Heart Association's clinics and similar community service projects, professional and lay education, diagnostic and surgical equipment purchases and financing of heart research done by Kentucky doctors as "key factors in the most miraculous progress we are seeing in the fight against heart and blood vessel diseases," Mr. Hockensmith urged "no let-down" in Heart Fund contributions. Most Kentucky communities will conduct door-to-door "Heart Sunday" collections on February 24, he announced.

## Burley Tobacco Allotments Unchanged

Secretary of Agriculture Orville L. Freeman has announced that burley tobacco allotments for most farms will be the same for the 1963 crop as for the 1962 crop.

The national marketing quota for the 1963 crop is 599,400,000 pounds compared with a quota of 571,800,000 pounds for the 1962 crop. Converted to acreage on the basis of average per acre yields during the past five years, the quota makes available for allotments for 1963 a total of 348,890 acres compared with 348,781 acres available for allotment in 1962. As in the past, a small acreage has been reserved for establishing allotments for farms having no burley tobacco acreage history during the past five years, for correcting errors and for adjusting inequities.

USDA announced January 17, 1963, that prices for the 1963 crop of burley tobacco will be supported at an average of 58.3 cents per pound. In announcing the 1963 support level, the Department explained that all decisions have not been made with respect to quality factors which affect actual support levels for individual grades.

USDA officials continued to urge burley growers to follow cultural practices in 1963 which will produce tobacco that will be acceptable to domestic and foreign users.
