'A Little Yappin'  
By Nellie Cram

Hears of the Week  
Rev. Frank Simons of Dorsey avenue has been very ill the past week at the local hospital.

M. R. Ritchie was reported ill at his home on Bartterville road.

Mrs. Mae H. Moreland has been suffering from deep cold since returning from a visit with her nieces in Indiana.

Misses Kathy and Agnes Price have returned from a visit with their uncle, Boxey Price, and family in Dayton, Ohio. Plans are for the Price girls of Ohio to visit their Carlisle Price cousins and attend the Blackberry Festival.

Mr. and Mrs. Marion Dixon and six children and Bud Tally of Blackbear, Ga. spent the weekend with Mr. and Mrs. Teyab Rose and family and mother, Mrs. Stella Watkins and other relatives. Mrs. Dixon is the former Leona Watkins, wife of Lorr Rose.

Mr. and Mrs. Kenneth Ritchie of Cincinnati have concluded a short visit with Mrs. Ella T. Snapp. Last Wednesday they were accompanied by Mrs. Snapp and Mrs. Hubert Blount for a trip to Morehead.

Mrs. Anna Neff of Detroit, Mich., was the weekend guest of her brother, Dan Burden, and family of the county.

The little dog that got so horribly injured in some unknown manner about ten days ago, was humanely put out of its suffering by a neighbor a few days ago. It was a kind deed by one who really cared.

Summer began last Friday, according to my calendar, and already the days are getting shorter. Huh-hum!

Yap.  
Birthday June 28  
Mrs. Joe Scott ("Miss Lou") of Dorsey avenue, will observe her ninetieth birthday June 28, which is this coming Friday. She has been "very well lately."

party for 200 boys and girls. It is staffed by 60 graduate nurses, 25 student nurses and 30 practical nurses.

This is where my little neighbor has been for eye treatment several times the past year and was fitted with glasses which has enabled the child to attend school. Think of what your dollar has helped to do!

Not One Bit Fenny  
What may have been one of the worst accidents in the history of Nicholas county could have happened one day during the past week. But it didn't, so you may draw your breath now.

Farmer Ralph Brookshire was setting tobacco with the help of his young son and Mason Miller, a neighbor, aided by a tractor and tobacco setter.

All was going well as they went lickerly-slick back and forth across the field. Possibly the tractor figured it could do a better job alone, so without warning or advance notice of any kind, the crazy thing said to have taken things in hand. Likely encountering a rock or root of some kind, it tilted over and lay there on one side dead as a doornail. The sudden impact turned the tobacco setter and Miller aboard. My informant "don't know" just who or what landed on top.

The Hand of Providence was at the scene when the three dazed fellows scrambled upright and could find no injuries to themselves other than scratches and torn clothing. It was a narrow escape, one they do not want to happen again. I'm sure.

Blue mold developed in many Nicholas county plant beds this spring. Some growers did not recognize the disease because the symptoms were not typical. Only rarely was blue mold visible on the under side of leaves on the plants. Some thought the disease was angular leafspot or wilt. Sometimes blue mold spores carry over on wildfire. Sometimes blue mold appear in beds this year. In the spring, therefore, all plant beds should be destroyed as soon as setting days has been completed. The beds should be seeded to soybeans or cow peas. This fall plow under the soybeans or cow peas and make an effort to prepare and sterilize the bed by one of the approved methods. These safety precautions will help greatly in preventing blue mold in 1964.

For Children Everywhere  
The recent release by the Children's Hospital, Louisville, Ky., reports Nicholas county as having had 82 days care during the past year. Jefferson county naturally led the list with 19, 254 days and Hardin county was second with 1, 232 days.

Admitted to the hospital were 6,858 children with 3,231 operations. A total of 290,140 meals were served. The hospital has a capacity for 200 boys and girls.

There are three important field days or events coming up in the near future that we would like to call attention to. The first will be July 9 at the University of Kentucky Extension Service Farm in Owen county. This will be a combination dairy and agronomy day starting at 10:00 a.m. at the farm and will include a tour of the agronomy plot, the dairy herd and other interesting demonstrations.

The second field day coming up is one that will be held in Mercer county on July 12. This will be a tobacco curing meeting with the University of Kentucky Extension Service, equipment dealers and LP gas dealers.

The third meeting will be held on July 17 which will be a meeting at the Cold Springs Farm at the University of Kentucky in Lexington and will be centered around beef cattle. Also research work being done with sheep and swine will be seen during the day. This program will get underway at 9:00 a.m. with a tour of the research facilities, a free barbeque lunch then an afternoon session at which Burl St. Clair will make a talk. Burl has been presenting at this meeting since 1957.

Miss Helen Huffman of Berry spent a few days recently with her sister, Mrs. Noble Lee Smith. Mrs. Junior Hopkins and son, Daisy Ritchie and Pat Hefflin spent last Sunday with Mr. and Mrs. Alvin Hefflin.

Miss Wanda Wade and Miss Daisy Ritchie spent one afternoon last week with Mrs. Bonnie Smith. Mr. and Mrs. Robt. Hodges and family spent last Sunday with relatives in Boone county.

Miss Sue Bailey graduated June 8 from the College of Arts and Science at the University of Cincinnati.

Mrs. Noble Lee Smith and baby spent one day recently with her mother in Berry.
