Daughter Lodge No. 45, F. & A. M., holds thirty-seventh annual commencement exercises of Carlisle High School at the high school building, following candidates were given the degree: Francis G. Ballew, Robert Gardner, G. R. Keller, Clay Henry, Clay Baskin, W. M. Mathers, John F. Morgan and H. N. Baskin.

Eight annual commencement exercises of Carlisle High School to be held Friday night when diplomas will be granted to the following students: Lucie Hargis Boreitt, first honors; Jennie King, second; Anna Laura Henry, third; Ruby Squires, fourth; James W. Parker, Everett H. Thomas and Frederick C. Cox.

night last week as I dozen in the rocker before the fire, a shut window through the plume and an Indian fell dead a few feet from the door. At that very moment the neighbor children, yelled "Come in." The door opened back, striking a chair that was in the way, and there stood two strange men. Possibly they were badly frightened as it was, seeing the dead Indian in everything. Their car was parked out front just in case.

Taking a second look, I could see the taller man was the spittier image of that Morton fellow down at the variety store on Main street. The other one had a book and a notebook and his name was Roy Dotson and tremed a bit surprised but has not been able to answer each one personally.

Mr. and Mrs. Cray Marshall and family spent a part of Mother's Day at Carter Caves and Huntington, West Va.—Yap.

As You Like It.
Nicholas county enjoyed a variety of real Kentucky weather last week: Frost two nights, temperature of 90 degrees two days, then back to 43 degrees. Those who have tomato plants out get a good workout covering and uncovering them.

As I write this on Monday morning a nice, gentle rain is falling, which is greatly appreciated.
When We're Half Asleep.
Thinking it over, I decided to tell you this incident which proves that things are not always as they seem. A bit comical now, but it was not so funny when it happened. One

Business Conditions
The weather was a factor in the business conditions of the county last week. The rain and fog kept many people from their usual activities, but the overall business activity remained steady.

CONSTRUCTION OF A TIMBER-LODGE—Shown above are some of the construction on steps in reaching the well-crooked home. Top pic Ed Cox and Harry Trapp in window into place. Middle pic, roof begins to take shape, erection time thus far only one-half day, Bottom, raising a frame into place, Cox and Trapp again. Carlisle, Ky. home was finished in four and one-half days.

After smoking the hams wrap them in butcher paper, place in a closely knit cloth bag and hang in a lightly screened, dry well ventilated room for aging. A good hot attic is an excellent place for aging hams.

Getting a Good Stand of Corn—To get a good stand we need to do several things: Plant slowly, with nearly all planters in use in Kentucky a speed of more than 4 miles per hour is costly.

We need to match the grade of corn and the planter or plow. We can do this by checking the recommendation on the seed tag.

We must check the adjustment and operation of the planter. We cannot afford to wait until corn is planted in time for these adjustments and operations.

We must not use too much nitrogen or potash fertilizer in contact with the seed. The use of 200 pounds of 10-10-10 fertilizer is too much.

DEEDS RECORDED
