NOTICE
WHO'S WHO
 It is to be expected that supporters of any Candidate will puff up their favorite with a certain amount of propaganda, which is considered as such and given very little thought and credence. The hearers and readers of such chat quickly recognize it and react adversely toward it. Some such scurrilous reading matter appeared in the May 16 issue of the Carlisle Mercury, which is having a revolting effect on the citizens of Nicholas County. It has been a constant topic of conversation all over the County concerning the lack of interest the Combs administration has shown toward Nicholas County. One need but step out of his door to see the evidence of the lack of concern of our road system, just to mention one obligation to the citizens of Nicholas County by the Combs administration. It is a well known fact that Mr. Chandler has built more roads in this County and all over the State than all the rest of the Governors of the State of Kentucky combined during its long history. Diplomats, as well as those voters of the Republican party, who have registered Democrats will long remember what Mr. Chandler has done for Nicholas County. They will not forget his past administrations, and especially his last one, when there was a tremendous amount of road building in Nicholas County. He originated the plan for roads from "Farm to Market", and he made that plan a reality in Nicholas County as well as in every other county in the State. One need but ride over the roads of this County and over the State to see the decadence of our highways as well as rural roads. It will be remembered that Mr. Chandler constructed over 60 miles of roads in Nicholas County during his last administration and that to date the Combs administration completed a total of 1/4 mile. Voters both Democrats and Republicans will remember the bridge built over "Eel" Creek on the Licking Pike, nor will those voters who live on the Pleasant Valley Road, Cassidy Creek, Cane Run, Locust Grove, Somerset, Pleasant Springs, Saltwell, Johnson, Bald Hill, Panther Creek, Carpenter Pike, Rose Hill, Upper Jacks-town, and other roads, forget that they were taken out of the dust and mud by having those roads "black topped" by Mr. Chandler during his last administration. These comments deal only with the road system in Nicholas County but the attitude of the Combs Administration has shown apathy toward Nicholas County in all other respects as well. "Chandler Ignored Nicholas County," did he? has he? You know the facts.

RECC Meeting
 Have you ever thought of the many labor saving appliances now being used by the 513 members of Fleming-Mason RECC in Nicholas County that have been made possible through rural electrification?

Fleming-Mason RECC is now observing its 25th anniversary of service to this and seven adjoining counties. The Silver Anniversary will be observed July 16 at the annual RECC meeting.

In effort to bring a picture of 25 years of progress to the citizens of this county, the Coop is planning a special exhibit of "Yesterday and Today" at the annual meeting. This exhibition is being made possible through your cooperation with the appliance dealers and electric utility.

You are invited to enter the exhibit and contest by entering appliance property proven to please that were used prior to the coming of rural electrification. This exhibit will include oil

lamps, candle holders, various types of hand irons, washboards, ice boxes, home made milk coolers, old crocks, churns, Dutch dasher type and mechanical washers (not electric), post-1928 radio, old phonographs, old cooking stoves, heaters, various types of lanterns, dishes, wringers, foot warmers, wash bowls and pitcher sets, old fashioned can openers, coffee grinders, old newspapers and anything of household use over 35 years ago. Take your entry to your favorite Appliance Store.
